## WAR BRIEFS

London, June 19.—(P)—An authoritative source said today that British North African forces had so little interference in their withdrawal to "original positions east of Salum" that "it looks as if the enemy was hit so hard he didn't like to come on—or couldn't" in this week's desert battling.

(Both the Germans and Italians, on the other hand, claimed victory for their troops in the conflict in the Libyan-Egyptian border region opened up by British offensive action started Sunday.)

Berlin, June 19.—(P)—More British tanks have been destroyed south of Salum in the aftermath of the violent Libyan-Egyptian frontier battle of armored forces, the German high command reported today.

German planes shot down six more British planes over the western desert front, the war bulletin said, and again smashed at the British naval base in Alexandria, Egypt, yesterday with heavy bombs.

London, June 19.—(P)—Commons will be asked at its next session to approve expenditure of an additional \$4,000,000,000 to meet war and other expenses during the year ending March 31, 1942, a white paper announced today.

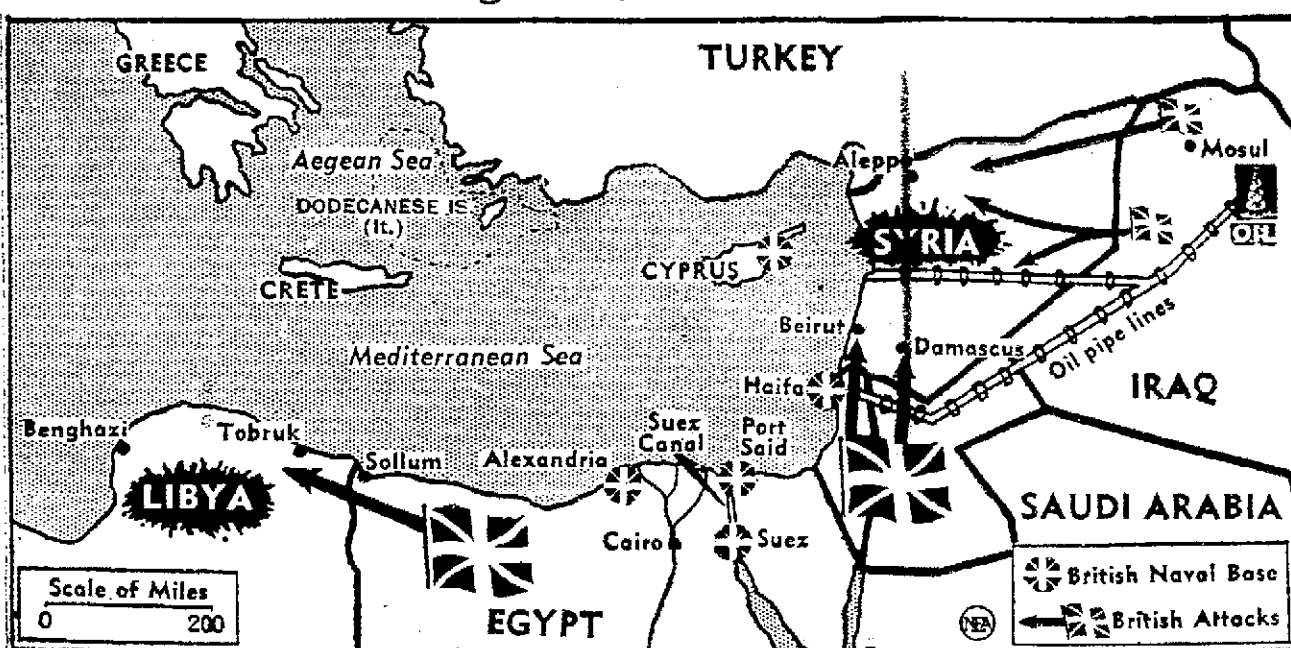

Harrisburg, June 19.—(P)—Republicans saw a "good" prospect today for passage of a congressional re-appointment bill before the general assembly adjourns, but Democrats were not so optimistic.

London, June 19.—(P)—An Exchange Telegraph dispatch from Stockholm today quoted a message from Stockholm as saying that travellers from Russia to Finland had reported a "frantic mobilization" along the railway line from Moscow to Leningrad.

Washington, June 19.—(P)—A defense official rated the value of the Nazi war machine today "in excess of \$100,000,000,000" and said that the United States might have to pour out a comparable amount before Germany was beaten.

Washington, June 19.—(P)—President Roosevelt asked congress today to waive some ship inspection laws in a move said by other officials to be aimed at increasing the legal load of oil tankers and reducing the number of experience seamen on merchant ships.

## British Swing Into Two-Front Offensive

## ADJOURNMENT DATE IS FIXED FOR JULY THIRD

Virtually Impossible for Legislature to Quit by End of Next Week, Senator Geltz Declares, After Checking List of Items To Be Handled

## RELIEF BILLS ADVANCE

Harrisburg, June 19.—(P)—Final adjournment of the 1941 legislature by Independence Day was predicted today by leaders of the state senate.

Senator James G. Geltz (R-Allegheny) checked the list of major items yet to be handled and concluded it would be "virtually impossible" to adjourn the session by the end of next week as originally planned.

"We can quit though in the first week of July, possibly July 3," he said, as the senate and house recessed until next Monday.

Still to be disposed of are:

1. The \$131,370,000 general relief appropriation for two years and a \$7,000,000 stop-gap sum for July. Both bills were advanced to a vote which can be taken Monday afternoon.

2. The personal property and bank shares taxes which the house fixed at three mills and the senate at four, the problem then going to a conference committee which thus far has failed to reach an agreement.

3. Congressional reapportionment to reduce the state's districts from 34 to 33 in accordance with the 1940 census. Senator George Wade (R-Cumberland), chairman of a conference committee handling this, said "prospects are good for an agreement."

4. Tax anticipation note issues, now in conference committee with Republicans seeking to base the final amount on \$413,000,000 revenue for the biennium while Democrats assert the tax yield will amount to \$426,000,000.

After a Democratic caucus yesterday, Philadelphia Chairman John B. Kelly said in a statement that

## FINLAND CALLS OUT RESERVES

Helsinki, June 19.—(P)—Finnish reserves were called at midnight and the government sharply curtailed civilian train traffic soon afterward to facilitate military preparations.

A presidential decree made all reserve officers regular army officers.

Army and navy cadets are to be graduated immediately to become lieutenants, it was announced. Previously, a year's active service had been a requisite.

The Finnish people were calm, quietly obeying measures to safeguard their independence as they did in 1939 when the war with Soviet Russia started.

Finnish newspapers discussed what they called the Russian-German crisis.

The Helsinki Sanomat observed that "causes independent of our control may give events a turn that can jeopardize our sovereignty, peace and liberty to the extent we are forced to defend them with everything in our power."

Cambridge, Mass., June 19.—(P)—Responding by proxy to a precedent-shattering award of an honorary degree by Oxford University in Harvard University's ancient yard, President Roosevelt asserted today that "We x x x would rather die on our feet than live on our knees."

"We, too, born to freedom and believing in freedom, are willing to fight to maintain freedom," the chief executive said in a message of response to a citation read by Lord Halifax, the British ambassador and chancellor of Oxford.

## CO-OPERATION OF OIL INDUSTRY IS URGED BY ICKES

Washington, June 19.—(P)—America's \$12,000,000,000 oil industry was called upon by Interior Secretary Ickes today to unite with the government "to the end that our efforts to defend democracy may not be hampered by any breakdown in the flow of essential petroleum products."

Ickes, who is defense petroleum coordinator, addressed an emergency conference of the petroleum executives, representing more than two-thirds of the world's production, called for immediately finding a way to ease the predicted oil scarcity in the populous east.

The oil men were challenged also to put forward plans "to further the effective utilization of our petroleum resources in the national emergency."

"You and I must unite in this great effort, the coordinator declared. "Our very national existence may be at stake; the right of any industry such as yours to function in the American way is threatened—threatened not by your government but by totalitarian powers that have already stamped their ruthless way across the prostrate democracies of continental Europe."

The Japanese freighter Azuma Maru sailed out into the Atlantic today without loading a cargo of lubricating oil which was banned on Monday by Harold L. Ickes.

## PRESSURE ON RUSSIA TIGHTENS

Informed Quarters in London of Opinion That Latest Accord Negotiated by Reich Fits Well Into Now Familiar German Practice of Isolating Intended Victims by Cajolery or By Threats Against Their Neighbors

## NO CONFIRMATION OF BORDER MOVEMENTS

## BULLETIN

New York, June 19.—(P)—The Moscow radio in a one-hour broadcast beamed to the United States in English today made no mention of the tense situation in the Soviet's foreign relations. The announcer told of the "abundance of foodstuffs on market places all over the Soviet Union," and there was a resume of home news in which Pravda, the official party organ, was quoted as saying the "Soviet people are on vacation, at the seashore, in the mountains . . ."

London, June 19.—(P)—The German-Turkish accord was interpreted by informed quarters today as virtually an infallible portent of a tremendous new Nazi military stroke. But the question remained whether it would be aimed at Soviet Russia or Suez.

These sources asserted that the pact fits well into the now familiar German practice of isolating intended blitzkrieg victims by cajolery or by threats against their neighbors.

"By the conquest of Crete, occupation of the Aegean islands and domination of the frontier of Turkish Thrace, Hitler has been in a position to enforce the original heavy demands he made on the Turks," informed sources said.

Informed British circles agreed that all signs pointed to the possibility of an open break between Berlin and Moscow, and that the friendship treaty which Germany signed yesterday with Turkey had placed Adolf Hitler in a powerful position to enforce his will upon Russia.

They regarded with skepticism, however, roundabout reports from Turkey that Germany or Rumania had served an ultimatum upon Russia, and that Nazi troops had

## SENATORS COOL TO PROPOSAL OF ARMING VESSELS

Washington, June 19.—(P)—The Senate showed distinct coolness today to the idea of arming American merchant ships against submarines, several legislators declaring that such a move would invite Axis attacks.

The discussion was predicated on President Roosevelt's statement that the United States had plans in complete readiness for arming her merchantmen. Mr. Roosevelt was replying to a question regarding the torpedoing of the Robin Moon, and his words were considered a hint that the necessary orders would be issued if developments warranted.

Senator Norris (Ind.-Neb.) while saying he had not studied the entire situation, told reporters he questioned the effectiveness of arming merchant vessels.

One of the 11 senators who blocked arming of U. S. ships before the nation entered the World War in 1917, Norris said that arming ships "would not give them much protection."

Senator Herring (D-Iowa) thought arming cargo ships "would be getting mighty close to war."

Senator Wheeler (D-Mont.), a leading critic of administration foreign policy, declared: "If we will merely make them all targets for attack. Those who are urging that ships be armed do not want it for protection but for the creation of further accidents that might take our people into war."

Harrisburg, June 19.—(P)—The last minute pleas of Herman Pettilio, Philadelphia spaghetti salesman, and Willie Jones, McKeesport negro, to be spared from execution June 30, came before the pardon board today.

Pettilio was condemned to death for the drowning of Raffaele Caruso in 1934 which the commonwealth contended was part of the activity of Philadelphia's "murder-for-insurance" ring.

Jones was convicted of shooting Frank Akerson, a meat packing foreman, as Anderson showed to a passing car for help. Jones had held up the pedestrian as he walked home from work over a narrow street.

## MAY HAVE DECISIVE INFLUENCE

Engineered by Hitler's Smooth-talking, Trouble-Shooting Diplomat, Franz Von Papen, Friendship Treaty Becomes Effective Immediately and Binds Two Countries to Respect Each Other's Territorial Integrity

## BERLIN INTERESTED IN BRITISH REACTION

## BY EDWIN SHANKE

Berlin, June 19.—(P)—Temporarily substituting lightning diplomacy for blitzkrieg, Adolf Hitler has neutralized Turkey in the present conflict by binding her with Germany in a 10-year non-aggression and mutual consultation pact.

Engineered by Nazidom's smooth-talking, trouble-shooting diplomat, Franz Von Papen, German ambassador to Turkey, the friendship treaty became effective when signed unexpectedly last night in Ankara by Von Papen and Turkish Foreign Minister Sukru Saracoglu.

The pact bound the two countries to respect each other's territorial integrity, "not to undertake any measures aimed either directly or indirectly at the other treaty partner," and to settle any differences or problems affecting the two countries through friendly consultation.

Coupled with it were two protocols looking toward promotion of trade and improvement of press and radio relations. The press truce was especially welcome in Berlin because Turkish newspapers have been a source of irritation to German officials.

The conclusion of the treaty had a bomb-shell effect comparable only to the German understanding with Russia which preceded the outbreak of the war and informed quarters expressed belief it would influence the course of the war just as decisively.

It generally was interpreted here as giving Germany a free hand for whatever operations may become necessary in the east.

The effect of the treaty in relation to Russia, if any, remained obscure. Neither spokesmen nor commentators threw any light on this question.

Both signatories are tied to Russia by friendship understandings. A spokesman said he did not know whether Russia had advance notice of the negotiations.

## VETS OF SPANISH WAR OPPOSED TO ALIENS

Altoona, June 19.—(P)—Pennsylvania's United Spanish War Veterans today forwarded to President Roosevelt and congress a resolution calling for the deportation of all aliens hostile to the government and a sharp tightening of laws dealing with sedition and sabotage.

The resolution, passed yesterday, urged the enactment of legislation to "outlaw and enforce" dissolution of all Communists, Fascists or Nazi organizations; the banning of "false, subversive and seditious teachings and teachers from all schools, colleges and universities" and the placing of any person convicted of sabotage under the same laws as those convicted of treason.

## ARE WITHOUT REASON

Harrisburg, June 19.—(P)—Busy clerks back-tracked through the Senate journal today removing all "conspiracy charge" statements by Senator Anthony Cavalcante after a special investigating committee found they "were made without reasonable or probable cause."

Over opposition of Cavalcante, the Senate adopted the committee's report "deploring" the conduct of the independent Fayette county Democrat and then expunged from its records all statements made by him on the floor in voicing charges of "a criminal conspiracy" in the assembly to favor legislation for "certain groups."

The committee of five senators and five representatives, after a study of information provided by Cavalcante to support his charge that "cash had been put on the barrel-head by vicious and powerful interests" to promote passage of a bill increasing the gross weight of trucks using the highways, reported to their respective branches, that:

"The information fails to establish a prima facie case of criminal conspiracy in the legislature or improper conduct on the part of legislators and that there is no evidence submitted to justify or warrant any further investigation on the part of the committee."

The investigators reported further "that the charges of Senator Cavalcante were made without reason."

## KILLERS SEEK TO EVADE THE CHAIR

Harrisburg, June 19.—(P)—The state pardon board today continued the appeal of Herman Petrillo, Philadelphia spaghetti salesman, under death sentence in the Philadelphia "murder-for-insurance" case to permit his counsel to take the case to the U. S. Supreme Court.

Petrillo was condemned to death for the drowning of Raffaele Caruso in 1934—which the commonwealth contended was part of the activity of Philadelphia's "murder-for-insurance" ring.

Jones was convicted of shooting Frank Akerson, a meat packing foreman, as Anderson shouted to a passing car for help. Jones had held up the pedestrian as he walked home from work over a narrow street.

## PRESSURE ON RUSSIA TIGHTENS

Informed Quarters in London of Opinion That Latest Accord Negotiated by Reich Fits Well Into Now Familiar German Practice of Isolating Intended Victims by Cajolery or By Threats Against Their Neighbors

## NO CONFIRMATION OF BORDER MOVEMENTS

New York, June 19.—(P)—The Moscow radio in a one-hour broadcast beamed to the United States in English today made no mention of the tense situation in the Soviet's foreign relations. The announcer told of the "abundance of foodstuffs on market places all over the Soviet Union" and there was a resume of home news in which Pravda, the official party organ, was quoted as saying the "Soviet people are on vacation, at the seashore, in the mountains . . ."

London, June 19.—(P)—The German-Turkish accord was interpreted by informed quarters today as virtually an infallible portent of a tremendous new Nazi military stroke. But the question remained whether it would be aimed at Soviet Russia or Suez.

These sources asserted that the pact fits well into the now familiar German practice of isolating all blitzkrieg victims by cajolery or by threats against their neighbors.

"By the conquest of Crete, occupation of the Aegean islands and domination of the frontier of Turkish Thrace, Hitler has been in a position to enforce the original heavy demands he made on the Turks," informed sources said.

Informed British circles agreed that all signs pointed to the possibility of an open break between Berlin and Moscow, and that the friendship treaty which Germany signed yesterday with Turkey had placed Adolf Hitler in a powerful position to enforce his will upon Russia.

They regarded with skepticism, however, roundabout reports from Turkey that Germany or Rumania had served an ultimatum upon Russia and that Nazi troops had

## SENATORS COOL TO PROPOSAL OF ARMING VESSELS

Washington, June 19.—(P)—The Senate showed distinct coolness today to the idea of arming American merchant ships against submarines, several legislators declared, claiming that such a move would invite Axis attacks.

The discussion was predicated on President Roosevelt's statement that the United States had plans in complete readiness for arming her merchantmen. Mr. Roosevelt was replying to a question regarding the torpedoing of the Robin Moor, and his words were considered a hint that the necessary orders would be issued if developments warranted.

Senator Norris (Ind.-Neb.), while saying he had not studied the entire situation, told reporters he questioned the effectiveness of arming merchant vessels.

One of the 11 senators who blocked arming of U. S. ships before the nation entered the World War in 1917, Norris said that arming ships "would not give them much protection."

Senator Herring (D-Iowa) thought arming cargo ships "would be getting mighty close to war."

Senator Wheeler (D-Mont.), a leading critic of administration foreign policy, declared: "It is obvious if we arm our ships we will merely make them all targets for attack. Those who are urging that ships be armed do not want it for protection, but for the creation of further accidents that might take our people into war."

## Conn Loses No Time Getting to Brockway

New York, June 19.—(P)—Billy Conn sped to Brockway, Pa., soon after he was knocked out in the 13th round by Champion Joe Louis in their heavyweight title fight at the Polo Grounds last night.

Promoter Mike Jacobs said this afternoon Conn had telephoned from the western Pennsylvania town but didn't say what he was doing there.

At Brookville, Pa., Walter Evans, Jefferson county register, reported a marriage license was issued today to Billy Conn and Mary Louise Smith, Pittsburgh model, and turned over to Thomas Stauffer, Brookville attorney whom Evans described as a friend of Conn.

Stauffer's office said Stauffer "left town" at noon without saying where he was going.

## PRESIDENT ASKS 'SAFE CONDUCT' OF OUSTED NAZIS

First Move is Made in Carrying Out Roosevelt's Order That All German Consular Officials Depart By July 10

## PRESAGES REJECTION

Washington, June 19.—(P)—The United States has requested Great Britain to assure "safe conduct" through the blockade for all German consular officials in this country, it was learned authoritatively today, as the first move in carrying out President Roosevelt's order that they depart by July 10 because of acts "inimical to the welfare of this country."

The obligations, as well as the interests, of the United States are that the German officials be safely transported to their homes, it was explained, and not permitted to transfer their operations to Latin American republics where Axis-inspired activities already exist.

Asked whether any action would be taken to prevent the ousted Nazi officials from going to other American republics, Undersecretary of State Sumner Welles emphasized that arrangements were for their direct return to their homeland.

The State Department's prompt action in undertaking to arrange for "safe conduct" through the British blockade was described in informed quarters as presaging a flat rejection of the German government's protest against the White House order.

The undersecretary disclosed that arrangements were already under way for the departure of an estimated 125 consular officers and employees in 24 American cities on the ground they had engaged in "activities wholly outside the scope of their legitimate duties" and of improper and unwarranted character.

The United States has notified the other American governments of the expulsion order, thereby raising the question of applying a Pan-American rejection enjoin-

## MAY HAVE DECISIVE INFLUENCE

Engineered by Hitler's Smooth-talking, Trouble-Shooting Diplomat, Franz Von Papen, Friendship Treaty Becomes Effective Immediately and Binds Two Countries to Respect Each Other's Territorial Integrity

## BERLIN INTERESTED IN BRITISH REACTION

BY EDWIN SHANKE  
Berlin, June 19.—(P)—Temporarily substituting lightning diplomacy for blitzkrieg, Adolf Hitler has neutralized Turkey in the present conflict by binding her with Germany in a 10-year non-aggression and mutual consultation pact.

Engineered by Nazidom's smooth-talking, trouble-shooting diplomat, Franz Von Papen, German ambassador to Turkey, the friendship treaty became effective when signed unexpectedly last night in Ankara by Von Papen and Turkish Foreign Minister Sukru Saracoglu.

The pact bound the two countries to respect each other's territorial integrity, "not to undertake any measures aimed either directly or indirectly at the other treaty partner," and to settle any differences or problems affecting the two countries through friendly consultation.

Coupled with it were two protocols looking toward promotion of trade and improvement of press and radio relations. The press truce was especially welcome in Berlin because Turkish newspapers have been a source of irritation to German officials.

The conclusion of the treaty had a bomb-shell effect comparable only to the German understanding with Russia which preceded the outbreak of the war and informed quarters expressed belief it would influence the course of the war just as decisively.

It generally was interpreted here as giving Germany a free hand for whatever operations may become necessary in the east.

The effect of the treaty in relation to Russia, if any, remained obscure. Neither spokesmen nor commentators threw any light on this question.

Both signatories are tied to Russia by friendship understandings. A spokesman said he did not know whether Russia had advance notice of the negotiations.

## VETS OF SPANISH WAR OPPOSED TO ALIENS

Altoona, June 19.—(P)—Pennsylvania's United Spanish War Veterans today forwarded to President Roosevelt and congress a resolution calling for the deportation of all aliens hostile to the government and a sharp tightening of laws dealing with sedition and sabotage.

The resolution, passed yesterday, urged the enactment of legislation to "outlaw and enforce" solution of all Communists, Fascists or Nazi organizations; the banning of "false, subversive and seditious teachings and teachers from all schools, colleges and universities" and the placing of any person convicted of sabotage under the same laws as those convicted of treason.

**Second Service of Celebration at Bethlehem Congregational Is Held**

There was a fine attendance last evening for the second service of the golden jubilee celebration being held by the Bethlehem Congregational church.

The service began at 7:30 o'clock and the "Jubilee Song," composed by the local choir director, David Scott, Sr., was used for the first time.

Scripture reading was by the president of the Young People's Society, Miss Violet Seagist, and prayer was led by the Sunday school superintendent, C. A. Waterbrand.

A special number in song was presented by Mr. and Mrs. David Scott, Sr.

Rev. J. H. Lundgren, of Essex, Iowa, appeared for the first time to greet his former parishioners in a few words. After the singing of "Blest Be the Tie That Binds," prayer was offered by Rev. Martin Hamlin, pastor of Calvary Baptist church.

Greetings were then read from Rev. and Mrs. N. J. Wessel, of Plainfield, N. J., who were unable to be present because of illness; Mrs. A. J. Dahlgren, of Winnipeg, Manitoba, Canada, a former minister's wife; Rev. D. Marcus, of Chicago, Ill., who served this church in his student days; also former members in Sioux City, Iowa; Tacoma, Wash.; Harrisburg and Minn.

Rev. A. G. Eklund, former pastor now located in Ironwood, Mich., gave a fine address on "The Indispensable Christ."

This afternoon at 2:30 o'clock, the Ladies' Aid Society held a service for its mid-summer festival, with the message brought by former Pastor Carl H. Peterson instead of by Rev. Lundgren, as was announced yesterday.

At 7:29 o'clock this evening, the service will be "Conference Night," with greetings from the districts, special music and sermon by Rev. Lundgren.

Tomorrow evening will be termed "Community Night," with singing, greetings by local pastors and sermon by Rev. Carl H. Peterson.

The non-member guests were Bruce Smith and Arthur Hanson, both local residents.

It was announced that the club will continue to meet in the Legion Home until early in July, at which time a new tea room on East Main street will become the organization's meeting place. Owner and manager of the soon-to-open new establishment is Mrs. Frank Byrne.

**ALLISON WADE ANNOUNCES FOR CO. JUDGESHIP**

Allison D. Wade, practicing attorney here for the past eleven years, announced today that he is a candidate for the Republican nomination for judge of the courts of Warren and Forest counties. Mr. Wade, one of Warren's best known trial attorneys, is now county solicitor, a position which he has held for the past six years.

A life-long resident of Warren, Mr. Wade was born here 39 years ago. Both his parents and grandparents also were life-long residents of the community and were active in civil affairs. Mr. Wade has carried out this tradition.

Mr. Wade was graduated from Warren High School in 1920 and from the University of Virginia in 1926. Following his graduation from the University of Buffalo Law School in 1930, he entered practice here with the law firm of Bordwell and Eldred, where he remained two years.

Since entering independent practice, Mr. Wade has gained many friends throughout the section. He has had a very active trial practice before the county courts here and in neighboring counties and before the appellate courts of the state, which has given him much experience in judicial procedure.

Politically, Mr. Wade has been very active in Republican affairs, local, state and national. At present he is national committeeman of the Young Republican organization, representing the state in national affairs of the party. Previously he has held many important executive positions in the county and state organization of the party.

He has always had a keen interest in the oil business and at present is secretary of the Middle District Oil Producers Association.

Mr. Wade also is a member of the advisory board of the Salvation Army and the board of governors of the Warren County Motor Club.

**Former Teachers and Pupils Hold Annual Reunion at Wrightsville**

Many older residents of the county will be particularly interested in the following account of the Wrightsville school reunion, kindly submitted by Elva Carlson:

The sixth annual reunion of the teachers and pupils of the Wrightsville school prior to 1921, with their families, was held Sunday, June 8, on the school grounds with a good attendance from Struthers, O., Jamestown, N. Y., Pittsburgh, Erie, Warren, Youngsville, Sugar Grove, Bear Lake, Lottsville and Sears Hill.

Following dinner, a business meeting was conducted by the president, Carl Hauptin. An opening song, "School Days," was led by Anna Woodin for group singing. Prayers were offered by Herbert Hauptin and piano duets were played by Genevieve Faust and Elva Carlson, both of Wrightsville. Readings were given by Mr. and Mrs. Pelton and Anna Woodin. Teachers in attendance were Jasper Mead, Harry Mallory, Harriet Morrison, James Pelton, Mary Wynn Rogers, Anna Faust and Fern Thompson.

All enjoyed interesting remarks by Jasper Mead, of Youngsville, who taught his first term of school here 55 years ago; Harry Mallory, of Struthers, who taught here 38 years ago, and Mrs. Morrison, Mrs. Boone and Charles Hauptin.

Officers elected for the ensuing year were: Carl Hauptin, reelected president; Herbert Hauptin, vice president; Elva Carlson, reelected secretary-treasurer.

A large gift box of chocolates direct from California was sent by a former pupil, Hazel A. Neer, of Flagstaff, Ariz., and was greatly enjoyed. As a token of appreciation, teachers, pupils and friends sent her by air mail a bouquet of mixed flowers.

After the meeting, all enjoyed ice cream and cake.

Plans for the reunion next year will be announced later.

**WARREN DAY AT CELORON WILL HAVE FEATURES**

One of the outstanding features for Warren Day next Sunday at Celoron Park is a sensational, breath-taking free act to be presented by "The Freeborns," it was announced today.

This is an unusual acrobatic novelty act, including high balancing, one-hand pinwheels and other feats. To say they are sensational is putting it very mildly, for they are "tops" and recognized as one of the finest acts of the kind, both in Europe and America. The feminine part of the act is extraordinarily clever, with fine appearance and personality.

Those who are planning to attend this biggest of all Warren outings, sponsored by the Times-Mirror, are invited to clip the coupon, appearing elsewhere in this paper, for "cut price" rides and concessions.

Many new features have been added to Celoron Park this season. The midway has been enlarged and revamped so you would hardly recognize it. Carpenters and other artisans worked for several months prior to the opening of the park to make Celoron more beautiful than ever.

"SkateLand" has been re-dressed and is now, without question, the most beautiful roller rink known to the skating public of this section. Patrons may skate to the Hammond organ in this mammoth rink.

The Pier will have a special matinee on Warren Day. A high class floor show will be presented as well as dancing with Maestro Lyle Carlyle twirling.

This band comes direct from Detroit and is one of the outstanding M. C. A. bands, playing sweet music as you like it.

Plan now to pack the picnic basket and meet your friends at Celoron on Warren Day. The outing is being sponsored by the Times-Mirror and you are sincerely invited to come early, stay all day.

# ALLISON WADE ANNOUNCES FOR CO. JUDGESHIP

Allison D. Wade, practicing attorney here for the past eleven years, announced today that he is a candidate for the Republican nomination for judge of the courts of Warren and Forest counties. Mr. Wade, one of Warren's best known trial attorneys, is now county solicitor, a position which he has held for the past six years.

A life-long resident of Warren, Mr. Wade was born here 39 years ago. Both his parents and grandparents also were life-long residents of the community and were active in civil affairs, and Mr. Wade has carried out this tradition.

Mr. Wade was graduated from Warren High School in 1920 and from the University of Virginia in 1926. Following his graduation from the University of Buffalo Law School in 1930 he entered practice here with the law firm of Bordwell and Eldred, where he remained two years.

Since entering independent practice, Mr. Wade has gained many friends throughout the section. He has had a very active trial practice before the county courts here and in neighboring counties and before the appellate courts of the state, which has given him much experience in judicial procedure.

Politically, Mr. Wade has been very active in Republican affairs, local, state and national. At present he is national committeeman of the Young Republican organization, representing the state in national affairs of the party. Previously he has held many important executive positions in the county and state organization of the party.

He has always had a keen interest in the oil business and at present is secretary of the Middle District Oil Producers Association.

Mr. Wade also is a member of the advisory board of the Salvation Army and the board of governors of the Warren County Motor Club.

# Former Teachers and Pupils Hold Annual Reunion at Wrightsville

Many older residents of the county will be particularly interested in the following account of the Wrightsville school reunion, kindly submitted by Elva Carlson:

The sixth annual reunion of the teachers and pupils of the Wrightsville school, prior to 1921, with their families, was held Sunday, June 8, on the school grounds with a good attendance from Struthers, O., Jamestown, N. Y., Pittsburgh, Erie, Warren, Youngsville, Sugar Grove, Bear Lake, Lottsville and Sears Hill.

Following dinner, a business meeting was conducted by the president, Carl Haupin. An opening song, "School Days," was led by Anna Woodin for group singing. Prayer was offered by Herbert Haupin and piano duets were played by Genevieve Faust and Elva Carlson, both of Wrightsville. Readings were given by Mr. and Mrs. Pelton and Anna Woodin. Teachers in attendance were

Jasper Mead, Harry Mallory, Harriet Morrison, James Pelton, Mary Wynn Rogers, Anna Faust and Fern Thompson.

All enjoyed interesting remarks by Jasper Mead, of Youngsville, who taught his first term of school here 55 years ago; Harry Mallory, of Struthers, who taught here 38 years ago, and Mrs. Morrison, Mrs. Boone and Charles Haupin.

Officers elected for the ensuing year were: Carl Haupin, reelected president; Herbert Haupin, vice president; Elva Carlson, reelected secretary-treasurer.

A large gift box of chocolates direct from California was sent by a former pupil, Hazel A. Neer, of Flagstaff, Ariz., and was greatly enjoyed. As a token of appreciation, teachers, pupils and friends sent her by air mail a bouquet of mixed flowers.

After the meeting, all enjoyed ice cream and cake.

Plans for the reunion next year will be announced later.

**BOATMAN DROWNS**  
Pittsburgh, June 19.—(P)—A joy ride in a rowboat equipped with an outboard motor ended in death last night for Albert Gethoff, 25, of Homewood.

He was drowned in the Allegheny river near Lock No. 2, when the boat in which he was riding with two companions, was capsized by the swells of a passing steamer. The friends, Martin Selzer, 25, and a brother, William Selzer, 19, swam to shore where Gethoff had left his wife and two children a short time before.

Glasses three feet long were used to drink the king's health in the days of King James II of England.

# WARREN DAY AT CELORON WILL HAVE FEATURES

One of the outstanding features for Warren Day next Sunday at Celoron Park is a sensational, breath-taking free act to be presented by "The Freeborns," it was announced today.

This is an unusual acrobatic novelty act, including high balancing, one-hand pinwheels and other feats. To say they are sensational is putting it very mildly, for they are "tops" and recognized as one of the finest acts of the kind, both in Europe and America. The feminine part of the act is extraordinarily clever, with fine appearance and personality.

Those who are planning to attend this biggest of all Warren outings, sponsored by the Times-Mirror, are invited to clip the coupon, appearing elsewhere in this paper, for "cut price" rides and concessions.

Many new features have been added to Celoron Park this season. The midway has been enlarged and revamped so you would hardly recognize it. Carpenters and other artisans work for several months prior to the opening of the park to make Celoron more beautiful than ever.

"Skateland" has been re-dressed and is now, without question, the most beautiful roller rink known to the skating public of this section. Patrons may skate to the Hammond organ in this mammoth rink.

The Pier will have a special matinee on Warren day. A high class floor show will be presented as well as dancing with Maestro Lytle Carlyle twirling the stars. This band comes direct from Detroit and is one of the outstanding M. C. A. bands, playing sweet music as you like it.

Plan now to pack the picnic basket and meet your friends at Celoron on Warren Day. The outing is being sponsored by the Times-Mirror and you are sincerely invited to come early, stay all day.

# Second Service of Celebration at Bethlehem Congregational Is Held

There was a fine attendance last evening for the second service of the golden jubilee celebration being held by the Bethlehem Congregational church.

The service began at 7:30 o'clock and the "Jubilee Song," composed by the local choir director, David Scott, Sr., was used for the first time.

Scripture reading was by the president of the Young People's Society, Miss Violet Seaguilt, and prayer was led by the Sunday school superintendent, C. A. Waterbrandt.

A special number in song was presented by Mr. and Mrs. David Scott, Sr.

Rev. J. H. Lundgren, of Essex, Iowa, appeared for the first time to greet his former parishioners in a few words. After the singing of "Blest Be the Tie That Binds," prayer was offered by Rev. Martin Hamlin, pastor of Calvary Baptist church.

Greetings were then read from Rev. and Mrs. N. J. Wessel, of Plainfield, N. J., who were unable to be present because of illness; Mrs. A. J. Dahlgren, of Winnipeg, Manitoba, Canada, a former minister's wife; Rev. D. Marcellus, of Chicago, Ill., who served this church in his student days; also former members in Sioux City, Iowa; Tacoma, Wash.; Harrisburg and Munhall.

Rev. A. G. Eklund, former pastor now located in Ironwood, Mich., gave a fine address on "The Indispensable Christ."

This afternoon at 2:30 o'clock, the Ladies' Aid Society held a service for its mid-summer festival, with the message brought by Former Pastor Carl H. Peterson instead of by Rev. Lundgren, as was announced yesterday.

At 7:50 o'clock this evening, the service will be "Conference Night," with greetings from the districts, special music and sermon by Rev. Lundgren.

# FIRE CAPTAIN DIES FOLLOWING SHORT ILLNESS

Leon R. Brown, of 56 Locust street, a captain in the Warren Fire Department for nearly 15 years, died at the Warren General Hospital this morning at 9:45 o'clock following an emergency operation to which he submitted last Saturday. He was 50 years old.

Mr. Brown was in his usual good health last week and was on duty Saturday morning. Suddenly taken ill, he was removed to the hospital, where he underwent an operation in the afternoon.

He was the oldest man in the Warren Fire Department in point of service, having joined the department on October 1, 1916. He was promoted to the rank of captain on August 15, 1926, and has held that position ever since. He was connected with Engine Company No. 1 at the Central Fire Station and served as driver of this engine.

He was known as one of the most efficient men in the fire department and his loss will be keenly felt.

Mr. Brown was a member of the Warren Lodge of Moose.

He was born in Warren, January 23, 1891, the son of Alexander and Ida Baker Brown. He spent his entire life in this community.

He is survived by his wife, Mary Hofer Brown; one sister, Mrs. Robert Schneider, of Titusville, and one brother, John F. Brown, of Warren.

Removal was made to the Peterson Funeral Home, where friends may call and where services in his memory will be held at 2:30 o'clock Saturday afternoon. Dr. J. H. Clemens, pastor of Grace Methodist church, will officiate. Interment will be in Oakland cemetery.

## MONTGOMERY WARD

Russia fought against England, France, Sardinia, and Turkey in the Crimean War.

### TANKER SHORTAGE AND EAST COAST OIL SUPPLY

GASOLINE MOVES from refinery centers over existing gas-refined products lines to many points in Midwest; little move east.

LESS THAN 45,000 barrels of crude moves daily over eastbound lines; no more than 55,000 additional barrels could move with all lines in service.

WEST COAST OIL vital only to that region, as other pools have ample for all U.S. requirements. Lack of transport will hit western operators.

## TO REORGANIZE NYA SETUP FOR ENTIRE STATE

Reorganization of the National Youth Administration setup in Pennsylvania through the elimination of present district offices and consolidation of county offices into nine area offices will be effected July 1, according to State NYA Administrator Isaac C. Sutton.  
 Under the new plan, Warren county will be located in Area Eight, which will be supervised by John Pella, present assistant director of District 3.  
 Headquarters will be in New Castle and in addition to Warren the area will include Armstrong, Beaver, Butler, Clarion, Crawford, Erie, Forest, Lawrence, McKean, Mercer, and Venango counties.  
 At present the NYA maintains three district offices, located in Pittsburgh, Harrisburg and Philadelphia, and 37 county or county unit offices.  
 Sutton said the move is being made in the interest of administrative and supervisory economy so as to facilitate the handling of work under the national defense program.

CUPID IS BUSY

In spite of the war, Selective Service, high cost of living and everything else that might ordinarily be considered handicaps to Dan Cupid, people still get married.

During the past twelve months there must have been quite a few people in Cook county (Chicago) who didn't believe that everything was headed for the demerit bow-wows, for 46,914 couples stepped up to the marriage license clerk, an increase of 27.5 per cent over the year before.

Meanwhile divorce also increased but only 5.6 per cent to a total of 9,737, about one-fifth as fast.

Since it has been jestingly argued that a man must be an optimist to marry at all, it must follow that those who marry at a time like this disagree profoundly with the prophets of doom who keep croaking that all is lost and nothing remains but to take to the lifeboats.

One had only to scan the columns of the Times-Mirror during the past couple weeks to realize that it was June, and weddings were getting as much attention as the war news. After all, there is so much more of permanency and benefit in marriage—so much more of constructive planning and hope for tomorrow—that the whole country takes heart.

The picture of the June wedding scene grows more colorful every year, as the decorators and dressmakers think up new schemes for making a brilliant spectacle out of the affair.

So to all the newlyweds, or those contemplating marriage, there go the best wishes of the community for prosperous voyage through the sunshine and storms of life.

THE POT CALLED THE KETTLE—

"You're a sad-looking specimen," said the pot to the kettle. "All burned black, and lying there in the corner of the cellar for the past two years, no good to man nor beast."

"You've got a lot of nerve," responded the kettle. "There's a hole in you big enough to run molasses through, except for the cobwebs. You aren't even fit to hold old paint brushes!"

"Guess you're right," sighed the pot. "I hope somebody will remember us when the national drive to collect old aluminum comes along. I'd rather be part of a bomber than a dust collector in this old cellar."

If you hear any old aluminum pots and kettles in your cellar or attic talking in those terms, better look 'em over. An opportunity is going to be offered soon to make them useful once more in the nation's service.

A prosperity item that should not be overlooked comes from Philadelphia which quotes President M. W. Clement, of the Pennsylvania Railroad, as saying that the company has placed orders for \$23,000,000 worth of new equipment, including 6,020 freight cars, 50 cabin cars, 15 electric locomotives and 12 steam tenders. And what's more encouraging, the equipment is in addition to an order for 7,245 freight cars placed early this year. Company officials anticipate the peak fall traffic in 1942.

This is an eventful week for the Bethlehem Congregational church which is having its jubilee celebration, and we take pleasure in joining with the community in extending felicitations and best wishes to the pastor and congregation. It is gratifying to note this sturdy congregation continues to grow, not only in membership but in help and influence, after fifty years of service to the community.

Better draw a halt on tire skidding and extra mileage. Government action probably will be taken within the near future to force conservation of rubber, defense officials say.

That non-aggression pact seems to have given Hitler everything he could have desired from Turkey, including the part that went over the fence last.

Everything is running true to form, as the mercury climbs higher the campaign becomes warmer.

News from the war zones seems a little more encouraging today.

EDSON'S WASHINGTON COLUMN

Washington, June 19.—They call Tom Connally of Marlin, Tex., the last of the long-haired senators. All the others let the barbers cut around their ears and run the clippers up their necks, or are so baldish they don't even make it interesting for a tonsorial artist who really loves his work.

Tom doesn't reveal his age in the Congressional Directory, but he was a soldier in the Spanish-American War and from other sources comes the word that he will soon be 65. And if you, gentle male reader of 50 or over, could grow hair like the senior senator from Texas, you'd make the barbers be discreet too. Get even a distant look at big Tom on the Capitol grounds under his broad-brimmed, black three-gallon hat and you know that there, by golly, goes a statesman, even if he doesn't wear a frock coat.

Maybe, like Samson, his strength is in that hair. At any rate, he has the strength of a longhorn steer and its courage too, and when he starts pawing the ground, a stampede can start anytime and it's just as well to get for the top rails of the corral fence. The Senate of the United States can be the dullest of deliberative assemblies when some of the demagogues start drooping, but when the senator from Texas takes the floor it can be livelier than a barn dance. Likewise, a Senate committee can bore you to insensibility, but when the gentleman from Texas starts asking questions of a witness who doesn't want to be too specific or doesn't know exactly what he's talking about, you wake up quick. Talkin' Texas, droppin' g's all over the carpet and flattenin' his a's all over the table, he is again the prosecut' attorney from Falls county with a barbed-wire flair at the tip of his tongue. He can

make a bureaucrat squirm through his testimony like a coyote in the sagebrush, its tail between its legs, headin' for the hills.

Old Tom—you call him "old" affectionately, for he is a lovable cuss with a magnificent sense of sarcasm—has been in unusually fine form this last week or so, backing his amendment to the selective service law to permit the President to take over the strike-bound plants, and ripping into the Aluminum Company of America as its officials came before the Truman committee investigating national defense, lashing at everything which savored of bunk or didn't make sense to his Texas mind.

"The senator from Ohio is a statesman," Connally cracked at Taft in debate. "He does not think this bill is any good but he is for it."

A moment later, Taft tried to make the point that Connally's amendment would not prevent men from striking against the United States government, that a strike simply meant the men ceased to work.

"Oh, they can quit if they want to," agreed Connally, "and they can go plumb to Ohio."

When Senator Maloney offered an amendment, Connally accepted it, but when Maloney came back with another, Connally ducked it with a gagline: "I have accepted one amendment from the senator from Connecticut," he said, "and the quota today is only one amendment per senator."

"The debate was on for three days and Connally fighting every minute, kept peppering his argument with a salty humor that kept his colleague and the gallery grinning."

"I am not in favor of putting into the bill a great number of 'ifs,'"

STORIES IN STAMPS

Libya Is Important In Present Conflict

OF considerable strategic value in World War II is Libya, until a few months ago an Italian colony, now in German hands. The stamp above, commemorating the 13th Agricultural Fair at Tripoli, was issued in 1939.

Today, British forces are vying with German for possession of this northern African territory, important to both sides because it lies on the shores of the Mediterranean within reach of Gibraltar and Malta—a menace to vital British shipping as long as Germany holds it.

Libya was formed from the former countries of Tripoli and Barca after Italy took these two states from Turkey in 1912. The Italians issued an ultimatum to the Turks to withdraw from Tripoli and hand over control within 48 hours or military action would follow. The Turks refused to surrender the possessions without a fight, and Italian troops moved in and took control.

As a result, Turkey was compelled to withdraw, but she refused to recognize Italy's sovereignty over this territory.

A Washington Daybook

By JACK STINNETT

WASHINGTON—If any proof is needed that there is humor yet in the international situation, it may be found in the off-the-record stories from that junket which the Latin-American admirals recently were accorded in a coast-to-coast survey of United States defenses.

Here are some of the first-hand yarns which leaked out after the admirals returned to Washington and bid adios:

The two chartered airliners and the two transport planes (which carried the party's luggage) were flying in formation over the Grand Canyon. As one member of the group expressed it, there is nothing so staggering as the "perpendicular beauty" of the Canyon which seems to drop into nowhere with only multi-colored cathedral spires and turreted castles of mile-high rock to mark its dizzy descents.

Among others gazing down into the canyon's awesome depths was Vice-Admiral Gustavo Shroder, of Uruguay (the same who was in command of Montevideo harbor when the crippled Graf Spee limped in and who notified the Nazi commander that he had better be off pronto or else the Uruguayan navy would have itself a fine new German battleship).

When the Vice-Admiral coughed and hemmed and hawed, an American officer stepped to his side and drawing his conclusion from the terrific bumpiness of the air over the canyon, asked the Admiral if he were ill.

"Not at all," Admiral Shroder replied, still staring down. "I was just thinking what inconvenient country to be in with only a bi-cycle."

One of the studios took pictures and the next morning presented the admirals with a fancy picture book, showing photos of them with their beautiful hostesses. Commodore Coello, looking over one of the books, said: "Well, had I known—"

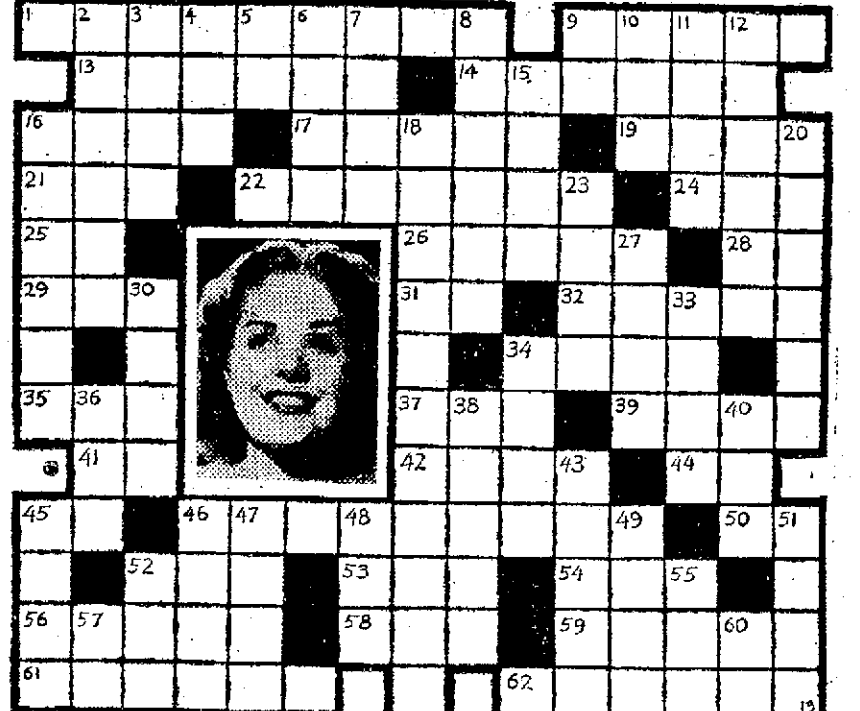

One of his confreres commented wryly: "Count yourself lucky, my friend. When we get home you probably will be the only one of us whose wife will not break his head."

Only Two Ships

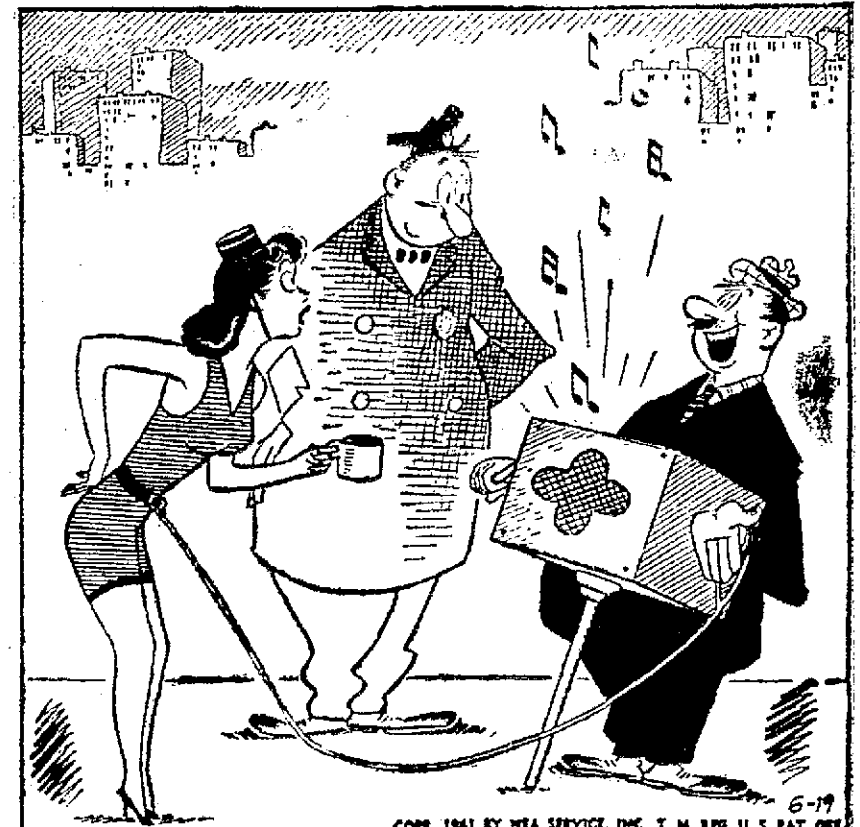

THE stock joke of the trip was: "Where's the fleet?" because although the visitors were in this country 24 days, the only operating ships they visited were Vincent Astor's yacht in the Atlantic—and the ferry that plies between San Diego and Coronado Island. When they walked across the gangplank of the ferryboat, one of the admirals, eyes twinkling, spread his legs into a stance and announced with gusto: "Ah, it's good for a seafaring man to get his feet on a deck once more."

**CUPID IS BUSY**

In spite of the war, Selective Service, high cost of living and everything else that might ordinarily be considered handicaps to Dan Cupid, people still get married.

During the past twelve months there must have been quite a few people in Cook county (Chicago) who didn't believe that everything was headed for the demitisse bowl, for 46,914 couples stepped up to the marriage license clerk, an increase of 27.5 per cent over the year before.

Meanwhile divorce also increased but only 5.6 per cent to a total of 9,737, about one-fifth as fast.

Since it has been jestingly argued that a man must be an optimist to marry at all, it must follow that those who marry at a time like this disagree profoundly with the prophets of doom who keep croaking that all is lost and nothing remains but to take to the lifeboats.

One had only to scan the columns of the Times-Mirror during the past couple weeks to realize that it was June, and weddings were getting as much attention as the war news. After all, there is so much more of permanency and benefit in marriage—so much more of constructive planning and hope for tomorrow—that the whole country takes heart.

The picture of the June wedding scene grows more colorful every year, as the decorators and dressmakers think up new schemes for making a brilliant spectacle out of the affair.

So to all the newlyweds, or those contemplating marriage, there go the best wishes of the community for prosperous voyage through the sunshine and storms of life.

**THE POT CALLED THE KETTLE—**

"You're a sad-looking specimen," said the pot to the kettle. "All burned black, and lying there in the corner of the cellar for the past two years, no good to man nor beast."

"You've got a lot of nerve," responded the kettle. "There's a hole in you big enough to run molasses through, except for the cobwebs. You aren't even fit to hold old paint brushes!"

"Guess you're right," sighed the pot. "I hope somebody will remember us when the national drive to collect old aluminum comes along. I'd rather be part of a bomber than a dust collector in this old cellar."

If you hear any old aluminum pots and kettles in your cellar or attic talking in those terms, better look 'em over. An opportunity is going to be offered soon to make them useful once more in the nation's service.

A prosperity item that should not be overlooked comes from Philadelphia which quotes President M. W. Clement, of the Pennsylvania Railroad, as saying that the company has placed orders for \$23,000,000 worth of new equipment, including 6,020 freight cars, 50 cabin cars, 15 electric locomotives and 12 steam tenders. And what's more encouraging, the equipment is in addition to an order for 7,245 freight cars placed early this year. Company officials anticipate the peak fall traffic in 1942.

This is an eventful week for the Bethlehem Congregational church which is having its jubilee celebration, and we take pleasure in joining with the community in extending felicitations and best wishes to the pastor and congregation. It is gratifying to note this sturdy congregation continues to grow, not only in membership but in help and influence, after fifty years of service to the community.

Better draw a halt on tire skidding and extra mileage. Government action probably will be taken within the near future to force conservation of rubber, defense officials say.

That non-aggression pact seems to have given Hitler everything he could have desired from Turkey, including the part that went over the fence last.

Everything is running true to form, as the mercury climbs higher the campaign becomes warmer.

News from the war zones seems a little more encouraging today.

None but God can satisfy the longing of an immortal soul; that as the heart was made for Him, so He only can fill it.—Richard Trench.

**EDSON'S WASHINGTON COLUMN**

Washington, June 19.—They call Tom Connally of Marlin, Tex., the last of the long-haired senators. All the others left the barbers cut around their ears and run the clippers up their necks, or are so baldish they don't even make it interesting for a tonsorial artist who really loves his work.

Tom doesn't reveal his age in the Congressional Directory, but he was a soldier in the Spanish-American War and from other sources comes the word that he will soon be 65. And if you, gentle male reader of 50 or over, could grow hair like the senior senator from Texas, you'd make the barbers go to bed. Get even a distant look at big Tom on the Capitol grounds under his broad-brimmed, black three-gallon hat and you know that there, by golly, goes a statesman, even if he doesn't wear a frock coat.

Maybe, like Samson, his strength is in that hair. At any rate, he has the strength of a longhorn steer and its courage too, and when he starts pawing the ground, a stampede can start anytime and it's just as well to get for the top rails of the coral fence.

The Senate of the United States can be the dullest of deliberate assemblies when some of the demagogues start droning, but when the senator from Texas takes the floor it can be livelier than a barn dance. Likewise, a Senate committee can bore you to insensibility, but when the gentleman from Texas starts asking questions of a witness who doesn't want to be too specific or doesn't know exactly what he's talking about, you wake up quick.

Talkin' Texas, droppin' g's all over the carpet and flattenin' his a's all over the table, he is again the prosecutin' attorney from Falls county with a barbed-wire flail at the tip of his tongue. He can make a bureaucrat squirm through his testimony like a coyote in the sagebrush, its tail between its legs, headin' for the hills.

Old Tom—you call him "old" affectionately, for he is a loveable cuss with a magnificent sense of sarcasm—has been in unusually fine form this last week or so backing his amendment to the selective service law to permit the President to take over the strike-bound plants, and ripping into the Aluminum Company of America as its officials came before the Truman committee investigating national defense, lashing at everything which savored of bunk or didn't make sense to his Texas mind.

"The senator from Ohio is a statesman," Connally cracked at Taft in debate. "He does not think this bill is any good but he doesn't wear a frock coat."

A moment later, Taft tried to make the point that Connally's amendment would not prevent men from striking against the United States government, that a strike simply meant the men ceased to work.

"Oh, they can quit if they want to," agreed Connally, "and they can go plumb to Ohio."

When Senator Maloney offered an amendment, Connally accepted it, but when Maloney came back with another, Connally ducked it with a gagline: "I have accepted one amendment from the senator from Connecticut," he said, "and the quota today is only one amendment per senator."

The debate was on for three days and Connally fighting every minute, kept peppering his argument with a salty humor that kept his colleague and the gallery grinning.

"I am not in favor of putting into the bill a great number of ifs," (Turn to Page Sixteen)

**STORIES IN STAMPS**

**Libya Is Important In Present Conflict**

OF considerable strategic value in World War II is Libya, until a few months ago an Italian colony, now in German hands.

The stamp above, commemorating the 13th Agricultural Fair at Tripoli, was issued in 1939.

Today, British forces are vying with German for possession of this northern African territory, important to both sides because it lies on the shores of the Mediterranean within reach of Gibraltar and Malta—a menace to vital British shipping as long as Germany holds it.

Libya was formed from the former countries of Tripoli and Barca after Italy took these two states from Turkey in 1912. The Italians issued an ultimatum to the Turks to withdraw from Tripoli and hand over control within 48 hours or military action would follow. The Turks refused to surrender the possessions without a fight, and Italian troops moved in and took control.

As a result, Turkey was compelled to withdraw, but she refused to recognize Italy's sovereignty over this territory.

**A Washington Daybook**

By JACK STINNETT

WASHINGTON—If any proof is needed that there is humor yet in the international situation, it may be found in the off-the-record stories from that junket which the Latin-American admirals recently were accorded in a coast-to-coast survey of United States defenses.

Here are some of the first-hand yarns which leaked out after the admirals returned to Washington and bid adios:

The two chartered airliners and the two transport planes (which carried the party's luggage) were flying in formation over the Grand Canyon. As one member of the group expressed it, there is nothing so staggering as the "perpendicular beauty" of the Canyon which seems to drop into nowhere with only multi-colored cathedral spires and turreted castles of mile-high rock to mark its dizzy descents.

Among others gazing down into the canyon's awesome depths was Vice-Admiral Gustavo Shroder, of Uruguay (the same who was in command of Montevideo harbor when the crippled Graf Spee limped in and who notified the Nazi commander that he had better be off pronto or else the Uruguayan navy would have itself a fine new German battleship).

When the Vice-Admiral coughed and hemmed and hawed, an American officer stepped to his side and drawing his conclusion from the terrific bumpiness of the air over the canyon, asked the Admiral if he would like the Uruguayan navy would have itself a fine new German battleship.

"Not at all," Admiral Shroder replied, still staring down. "I was just thinking what inconvenient country to be in with only a bi-cycle."

Too Much Formality?

ONE night about halfway through the 24-day junket, the American officers held a conference to discuss how things were going. One of the chief officers presided. He had spent many years in Peru and had traveled extensively elsewhere in South America, so it was with some testiness that he answered the navy medical officer who complained that the Latin-Americans were being subjected to too much stiffness and formality.

"The trouble with you," said the presiding officer, "is that you don't know Latin-Americans. I'm giving them what they like."

It was four days before anyone had the heart to tell the presiding officer that he had been talking to a half-Puerto Rican, who had been born, reared and had worked for years in the Caribbean, and whose father was undiluted Spanish-American.

The Luck Of It

IN HOLLYWOOD, the visiting admirals were given a typical Hollywood reception—glamour and all. Norma Shearer was Hostess No. 1. Carmen Miranda (Aie-yi-yi) was there and dozens of others of flimdom's most beautiful. And all the admirals were there except Commodore Coello of Mexico, who had many friends in Los Angeles and was spending the evening with them.

One of the studios took pictures and the next morning presented the admirals with a fancy picture book, showing photos of them with their beautiful hostesses. Commodore Coello, looking over one of the books, said: "Well, had I known—"

One of his conferees commented wryly: "Count yourself lucky, my friend. When we get home, you probably will be the only one of us whose wife will not break his head."

Only Two Ships

THE stock joke of the trip was: "Where's the fleet?" because although the visitors were in this country 24 days, the only operating ships they visited were Vincent Astor's yacht in the Atlantic—and the ferry that plies between San Diego and Coronado Island. When they walked across the gangplank to the ferryboat, one of the admirals, eyes twinkling, spread his legs into a stance and announced with gusto: "Ah, it's good for a seafaring man to get his feet on a deck once more."

BY WM. E. MCKENNEY  
 America's Card Authority

Our Southern tournament director, George W. Beynon, was confronted with today's perplexing hand in one of his tournaments when East, in sorting his cards, placed the king of hearts with his diamonds and thought he had the king of diamonds. West opened the ace of diamonds. When East gave a command with the seven of diamonds, West played the nine, hoping for a ruff. East now played what he thought was the diamond king. When it hit the table, he discovered it was the king of hearts. Of course, he immediately said, "I'm sorry, but I have a diamond." Beynon explained to the de-

clarer that he could treat the king of hearts as a penalty card, to be played at the first opportunity, or he could call upon East to play his highest or lowest diamond. The declarer elected to treat the king of hearts as a penalty card, and East then played the deuce of diamonds, dummy holding the trick.

Declarer, not realizing the nature of East's error, thought that the play of the seven and deuce was the completion of an echo, telling West that he would be able to ruff the next diamond. The jack of spades was led next from dummy and two more rounds picked up the trumps. Now South cashed the king of diamonds, expecting that East would have to discard the exposed king of hearts—but East blandly followed suit. Still intent on getting rid of that king of hearts, declarer cashed his last trump, and this time East had to play his penalty card.

Now declarer decided to finesse the heart, but East turned up with the queen of hearts, and cashed two good diamonds, setting the contract. With normal play, South was bound to make four spades. His claim to Beynon was that the episode of the king of hearts completely threw him off on the hand, and therefore, he should have a neutral score. The director ruled the hand had to stand as played.

## "Try this Spry FULL FLAVOR Orangeade Cake — it's a NEW receipt an' a dandy!"

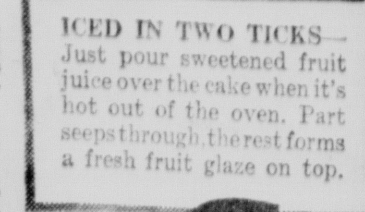

says  
 AUNT  
 JENNY

**REAL ORANGE FLAVOR—yes sir!** Purer Spry doesn't "smother" it as ordinary shortenings might. You get the FULL tangy taste of the fresh orange juice an' graded orange rind. An' tender—why, I'm tellin' you, this cake just melts in your mouth! Take my advice, folks, an' make one this very day.

Want a raft of compliments? Bake the Spry FULL FLAVOR way!

**NO FAINT, wishy-washy flavor** about a Spry cake! Whether you use chocolate, spices or fruit flavorings as in this cake, purer Spry always lets you get the FULL rich taste of the ingredients. It's a real flavor savor.

And Spry cakes are lighter cakes—money-saving cakes, too! Spry costs just about half as much as expensive cake shortening. Try Spry one week for all baking and frying. You'll never go back to ordinary shortenings again.

**ICED IN TWO TICS—** Just pour sweetened fruit juice over the cake when it's hot out of the oven. Part seeps through the rest forms a fresh fruit glaze on top.

**PURER ALL-VEGETABLE**

**Spry TRIPLE-CREAMED**  
 FOR EASIER MIXING

**Spry FULL FLAVOR Orangeade Cake**  
 Tangy and fragrant as the fruit itself!

1/2 cup Spry  
 1 teaspoon salt  
 1 tablespoon grated orange rind  
 1 cup sugar  
 2 eggs, unbeaten  
 1 cup nuts, finely chopped

1 teaspoon soda  
 1 teaspoon baking powder  
 2 cups sifted flour  
 1 cup orange juice  
 1/2 cup orange juice

Blend Spry, salt and orange rind. Add sugar gradually and cream well. (You'll marvel how quickly and easily Spry mixes.) Add eggs, singly, beating well after each addition. Add soda and baking powder with flour. Add four to creamed mixture, alternately with sour cream and orange juice, blending after each addition until smooth. Add nuts and blend. Bake in sprayed 10x10x2-inch pan in moderate oven (350° F.) 45 to 50 minutes.

**Topping for Cake**  
 1/2 cup sugar  
 1/2 cup lemon juice  
 1/2 cup orange juice  
 1 tablespoon grated orange rind  
 1 cup cake (optional)

Place above ingredients in bowl and warm over even while cake is baking. Drain orange sections. Pour fruit juices over cake as soon as it is removed from the oven. Decorate top with orange sections, one for each serving. This quick, easy way to "ice" a cake and how delicious! For purer Spry doesn't "dim" the delightful orange taste. Don't risk ordinary shortenings. Use purer Spry in this and every cake to make sure of getting the tempting FULL flavor. (All measurements level)

**GROWING**  
So steadily has man's stature increased since days of old that suits of armor, preserved for the past 1000 years, would hardly fit a 13-year-old boy today.

**FAT GIRLS**  
Here's A Tip For You  
All over America Kruschen Salts is appealing to girls and women who strive for an attractive, free-from-fat figure that seldom fails to win admiration.  
Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.  
Every morning take 1½ teaspoonful of Kruschen Salts in a glass of hot water before breakfast; cut out pastries and fatty meats—go light on white bread, potatoes, butter and cream—that's all. Do this every morning. In three weeks get on the scales and note how many pounds of fat have vanished. Notice also that you've gained in energy, your skin seems clearer, your eyes sparkle with more glorious health—you feel younger in body, keener in mind.  
Leading druggists America over sell Kruschen Salts, (a famous English formula) plain or new effervescent—sparkling—pleasant. You can always get it at any drug-gist. Try one bottle; last 4 weeks and costs but little. If not su-premely satisfied, money back. (adv.)

**SOUTHERN GRADUATE**

World's Largest Hog

"Jolly Jumbo", the world's largest living hog (above), who stands over four feet high and weighs 1,260 pounds, will be exhibited with the big white show in Warren Monday on the railroad siding at Fourth avenue and Chestnut street. "Jolly Jumbo" was once shipped via air mail parcel post from Fort Worth to Chicago at a cost of \$1900. Children 12 years old and under will be admitted free when accompanying adult admission. The mammoth show will be open from noon until 11 p. m.

GROWING

So steadily has man's stature increased since days of old that suits of armor, preserved for the past 1000 years, would hardly fit a 13-year-old boy today.

FAT GIRLS

Here's A Tip For You

All over America Kruschen Salts is appealing to girls and women who strive for an attractive, free-from-fat figure that seldom fails to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take 1/2 teaspoonful of Kruschen Salts in a glass of hot water before breakfast; cut out pastries and fatty meats—go light on white bread, potatoes, butter and cream—that's all. Do this every morning. In three weeks get on the scales and note how many pounds of fat have vanished. Notice also that you've gained in energy, your skin seems clearer, your eyes sparkle with more glorious health—you feel younger in body, keener in mind.

Leading druggists America over sell Kruschen Salts, (a famous English formula) plain or new effervescent—sparkling—pleasant. You can always get it at any drug-gist. Try one bottle; last 4 weeks and costs but little. If not supremely satisfied, money back.

READERS GIVEN OPPORTUNITY TO LEARN TO FLY

Do you want to learn to fly? If so, here is your opportunity. The Times-Mirror is sponsoring a contest in which residents of Warren county will have a chance to win a free 8-hour flying course at the Warren Airport.

This contest, which costs absolutely nothing to enter, is being conducted in cooperation with the King Air Service and the Library Theatre in connection with the coming of Paramount's picture, "I Wanted Wings," and will be known as the Piper Cub "I Wanted Wings" contest.

In addition to the local award of a free flying course, the winner here will be entered in the national contest in which the principal award is a new Piper Cub airplane.

All you have to do to enter this contest is to write fifty words or less on the subject, "Why I Want to Fly."

All letters must be written on the reverse side of an official entry blank, a copy of which appears in today's Times-Mirror. These entry blanks may be obtained at the Times-Mirror office, at the box office of the Library Theatre or at the Warren Airport.

When your letter is completed, turn it in at the Library Theatre box office. However, you do not have to buy a ticket in order to enter.

This contest, which is open to all men and women above 18 years of age, opens today and all entries must be in before midnight, July 8. Winner of the flying course will be selected by a committee of judges composed of Mrs. R. W. Steber, Superintendent of Schools John G. Rossman and Attorney R. Pierson Eaton.

The picture, "I Wanted Wings," will be shown at the Library Theatre on Sunday, Monday, and Tuesday, June 29, 30 and July 1.

Read the rules now! Then obtain an entry blank at one of the three places listed above and write your letter on "Why I Want to Fly." You may be the lucky winner of a free flying course.

## Two Colors Will Be Used in Registration

Two colors of registration cards will be used by Pennsylvania's 422 Local Boards in registering approximately 65,000 men for Selective Service on July 1, 1941.

Dr. William Mather Lewis, Selective Service Director for Pennsylvania, said after a study of revised regulations that white cards will be used for men born on or before October 16, 1919, while melon colored cards will be used to take the registrations of men born between October 17, 1919 and July 1, 1920.

While the July 1 registration is intended primarily to cover men who have reached their twenty-first birthday since last registration day, October 16, 1940, the local boards will be supplied with white cards also in the event that aliens between twenty-one and thirty-six who have entered the United States since October 16 and who have not registered may appear for registration on July 1.

Dr. Lewis said that if additional registration days are set by the President in the future, a distinctive color of card will be used for each, thus making it easy to keep the registration cards of registrants of each new age group separated from those of the older age groups.

**OFFER BROUGHT RESULTS**

### CUBS' CARNIVAL AT LUDLOW HAS BIG ATTENDANCE

Fourteen Ludlow Cubs and their leaders drew the spotlight last night as between 300 and 400 people from Ludlow, Kane and Warren thronged to their first carnival. Designing everything themselves and conducting each booth unassisted the Cubs put on a real affair showing what young Americans can do when put to the task.

The high spot in the affair was the parade through the crowd led by a youngster on a Sicilian donkey followed by "Ferdinand the Bull", "The King's queen", a cow, little "Ferdinand" and the "Princess", both calves, and the whole Cub Pack dressed in Indian costumes made from burlap bags by themselves, accompanied by circus clowns, tall men and other creatures of their own design and origin.

Emil Nelson, Cubmaster, was in charge of the affair and was assisted by all parents while Walter Cox acted as ringmaster.

## CUBS' CARNIVAL AT LUDLOW HAS BIG ATTENDANCE

Fourteen Ludlow Cubs and their leaders drew the spotlight last night as between 300 and 400 people from Ludlow, Kane and Warren thronged to their first carnival. Designing everything themselves and conducting each booth unassisted, the Cubs put on a real affair showing what young Americans can do when put to the task.

The high spot in the affair was the parade through the crowd led by a youngster on a Sicilian donkey followed by "Mae West", a prize mare, "Ferdinand the Bull", "The King's Queen", a cow, little "Ferdinand" and the "Princess", both calves, and the whole Cub Pack dressed in Indian costumes made from burlap bags by themselves, accompanied by circus clowns, tall men and other creatures of their own design and origin.

Emil Nelson, Cubmaster, was in charge of the affair and was assisted by all parents while Walter Cox acted as ringmaster.

## PLAN DAY CAMP FOR 4-H CLUBS IN THE COUNTY

On Saturday of this week, the home economics and agricultural 4-H clubs of Warren county will hold a "day" camp at Hearts Content. The affair is planned to give all the club members in the county some camping experience, and a very interesting program has been arranged.

Club members will assemble at two o'clock and hikes, conducted by Mr. Snyder, of Pennsylvania State College, and recreation in charge of W. S. Jeffries of the same college, will make up the afternoon program.

At six o'clock, the groups will start the preparation of their evening meal. Each club is planning to prepare a part of its supper over the campfire and many units have held "rehearsal meals" to practice for this outdoor cookery. The evening program will start at 8:30 o'clock with a vesper service conducted by the Glade Sunbonnet Girls, who will also participate in an impressive patriotic drill under the direction of Mrs. Merle Schweitzer.

An interesting campfire program will follow the vesper service, with group singing under the leadership of Mrs. Lloyd Price. Families and friends of the 4-H members are welcome to attend this outing. Local leaders should be informed of the number who will attend in order that adequate food supplies may be planned.

### PLAN DAY CAMP FOR 4-H CLUBS IN THE COUNTY

On Saturday of this week, the home economics and agricultural 4-H clubs of Warren county will hold a "day" camp at Hearts Content. The affair is planned to give all the club members in the county some camping experience, and a very interesting program has been arranged.

Club members will assemble at two o'clock and hikes, conducted by Mr. Snyder, of Pennsylvania State College, and recreation in charge of W. S. Jeffries of the same college, will make up the afternoon program.

At six o'clock, the groups will start the preparation of their evening meal. Each club is planning to prepare a part of its supper over the campfire and many units have held "rehearsal meals" to practice for this outdoor cookery.

The evening program will start at 8:30 o'clock with a vesper service conducted by the Glade Sun-bonnet Girls, who will also participate in an impressive patriotic drill under the direction of Mrs. Merle Schweitzer.

An interesting campfire program will follow the vesper service, with group singing under the leadership of Mrs. Lloyd Price.

Families and friends of the 4-H members are welcome to attend this outing. Local leaders should be informed of the number who will attend in order that adequate food supplies may be planned.

# BILLY CONN LOSES BY KNOCKOUT WITH TITLE NEARLY WON

## PITTSBURGH CHALLENGER WAS IN FRONT UNTIL THIRTEENTH ROUND; HAD COMPLETELY OUTBOXED LOUIS

By GAYLE TALBOT  
New York, June 19.—(A.P.)—For fleeting, golden moments last night, Billy Conn of Pittsburgh held the heavyweight championship of the world within his grasp.

Then Billy gambled, tried to match punches with Joe Louis, and the big negro snapped out of his strange lethargy and knocked Conn kicking in the 13th round before a thrilled crowd at the Polo Grounds.

Conn, the 174-pound gamester, was well in front when the end came, suddenly and unexpectedly. Louis, drawn too fine in his training, had looked a slow, sullen defender of the crown. Conn had danced around him for half the distance, tied him up in the clinches, then had come on to slap the Bomber's teeth out.

At the end of the 11th round the Pittsburgh wonder boy had spread his mouth wide in a grin as he returned to his corner and waved triumphantly to the gallery stretching far back into the dark stands. He thought he was "in," and so did an amazed audience.

**FIGHT FATALITIES**  
Philadelphia, June 19.—(A.P.)—Three elderly Pennsylvanians listened with so much excitement to radio accounts of the Billy Conn-Joe Louis fight that it cost them their lives.

Heart attacks killed T. Frank Lynn, 76, Allentown tax collector, and Andrew Burke, 68, Philadelphia, Elmer B. Erishman, Lancaster, died of a cerebral hemorrhage on the eve of his 67th birthday.

Before Burke died at a hospital he declared:

"It was a great fight."

In the twelfth round, the slim handsome challenger sent Louis reeling against the ropes with a vicious two-fisted attack. Louis looked slow, unable to take advantage of the targets offered him. The more than 35,000 electrified fans in the big ball yard were only waiting, tensed, for the final bell of the fight and the announcement that the "Bomber" and new champion was Billy Conn.

Then the 13th round began. Louis came out looking worried, and Conn rushed to meet him. From the challenger's corner blurted the warning cry: "Move around," as it had come from Conn's manager, Johnny Ray, from the opening bell on. But Billy was heedless. He went tearing to meet Louis.

A left hook caught Billy along the head and staggered him. He fell into a clinch. Louis, finally aroused, poured everything he had into the boy from Pittsburgh. Five consecutive rights landed flush on Conn's jaw before he finally crumpled to the canvas. He was down, still trying to struggle to his knees, when the count of 10 came and Referee Eddie Josephs signalled that it was all over.

Then they half-carried the strapping back to his corner, the blood pouring from his nose and from a cut under his eye. He still had a smile on his lips, a kid full of courage and glory. Later he cried in his dressing room as though his heart would break, but the last the crowd saw of him he was holding out his hand in congratulation to the negro who had beat him down.

Seldom has a heavyweight fight crowd seen the scales of victory shift so suddenly. Up to the instant when Louis caught and downed his man, it looked as though Conn had made good his boast and bedazzled the champion, a far bigger man.

Louis, for all his 199½ pounds and his vaunted punch, had looked like a slouchy, disgusted fighter up to the instant when he connected.

## SPORT SCATTERINGS

Just a little too excited, Billy Conn let over-confidence get the best of his headwork last night, and lost a fight which, if he had gotten through the thirteenth round, would have found Conn the new champion of the world. We're making no apologies today because we've strung along with Conn all the way and honestly expected him to win the decision beforehand. He would have won last night had he continued to jab Louis and befuddle the champion. But learn by experience, and out of last night's brawl Conn will get a return bout in September, and next time the end, we believe, will be different. Two more seconds last night, and the bell would have saved Conn from the knockout, giving him the respect which would have sent him on to win a decision. For most writers agree that Louis used all his reserve in the thirteenth, when he fortunately beat the bell and put Conn away.

Thanks to Mrs. R. Caldwell, one of the nicest baseball poems ever written as a tribute to any of baseball's great players has reached our desk, and the subject is Ray Caldwell, one of the most famous and successful major league pitchers ever to come from this vicinity. The poem is entitled "Ray Caldwell" and was written by "Right Cross," but don't ask us who that was or is. The poem:

When it comes to sudden switching  
And they need some heady pitching  
Or the chances of the Yanks are pretty dim,  
You can hear the bleachers below:  
"Batter can that other fellow.  
If you want to win the game, just call for Slim."

When the moments get to fitting  
And they need some real pinch hitting.  
Then an anxious gleam appears in Wild Bill's grin.  
"Say, this isn't golf," he mutters,  
"And I've got no use for putters,  
So I guess I'll have to send a call for Slim."

There he slouches, cool and grinning,  
In the straining, crucial inning.  
For there's nothing in the world that bothers him.  
With a careless swing he meets it,  
With a careless swing he meets it:  
Something happens when they send the call for Slim.

He's the reinforcing propping  
When the Yankees take a dropping.  
He's a bunch of nerve and made-to-order vim.  
It is certain while they've got him,  
That the Yanks won't hit the bottom:  
When they're in a hole they simply call for Slim.

Quickies . . . Ed Hasler's class A and B leagues and his doubles circuit are all just about ready to get going now, so he told us yesterday. Only thing holding up the start of the loops is to get the court in a little better condition, though to us it looks very good now. . . . Only nemesis is rain, which halts play 'til the clay can dry out. . . . The San Francisco Olympic Club has promised Lou Nova a life membership if he wins the heavyweight championship. . . . Which we believe he will, eventually. . . . Did you ever hear of a pitcher putting the spin on himself instead of the ball? . . . Tommy Hughes, Phillies rookie, got so much mud caked on his spikes he did it in Wrigley Field when he slipped off the rubber delivering a pitch.

The fifth annual Warren county golf tournament which will be held on the Maplehurst course, Sunday, July 13, is not to be considered a hot shot affair, but is primarily for the dub golfers who will be given numerous opportunities to win. Besides blind bogeys for the morning and afternoon rounds, "there will be several special awards which will be announced until after the firing has ceased."

In bogey competition the player names his own handicap, picking a figure which he believes will give him a score in the seventies when it is subtracted from what he shoots. The club pro draws a number in the seventies and the golfer posting a net score closest to that number is the winner.

The county championship will be defended by "Chink" Collins, who twice before has won the crown over the Maplehurst layout. One of the biggest threats to the champ this year may be Johnny Pawk, known best to Warren fans as a basketball artist, but who is posting some low scores this summer. Those challenging Collins must go the full thirty-six holes. The other golfers, out for the fun, may shoot either one or both of the eighteen hole rounds.

The entry fee is small and golfers may register with Leo Anderson, Maplehurst pro, Collins or Bob Walsh. Several local merchants will contribute merchandise if the field is large enough.

## CLEVELAND SCALPS ATHLETICS BY 14 TO 2 SCORE WITH SEVENTEEN HIT ATTACK; CHISOX TOPS YANKS

BY JUDSON BAILEY  
Associated Press Sports Writer  
The Cleveland Indians suddenly have become ferocious at the plate and look capable of gobbling up the lesser lights of the American League in big gulps.

Yesterday, they really opened up—getting 17 hits, including five home runs and four doubles to overwhelm the Philadelphia Athletics. 14-2. Hal Trosky hit two home runs and Lou Boudreau, Ray Mack and Ken Keltner one apiece.

This display of fireworks was accompanied by a four-hit pitching performance by Bob Feller, who coasted to his 14th victory of the campaign.

The Indians' first place margin was increased to three full games as the Chicago White Sox trimmed the New York Yankees by one run for the second day in succession, 3-2.

Spud Chandler of the Yanks, who hadn't won a game all year and wanted this one badly to celebrate the birth of his first baby Tuesday, pitched five hit ball. But the Sox made use of four of these hits to get enough runs to win.

The Detroit Tigers tore into the Boston Red Sox for a 5-2 victory behind the steady, eight-hit hurling of Lynwood (Schoolboy) Rowe, who gave up only one extra-base blow, a homer by Jimmie Fox.

The St. Louis Browns squeezed out a 3-2 verdict over the Washington Senators in a night game that drew a meager crowd of 7,000 at the nation's capital.

The St. Louis Cardinals continued their climb in the National League with a 7-3 triumph over the Phillies while the second-place Brooklyn Dodgers were stopping a 5-1 nod to the Chicago Cubs.

Max Lanier pitched six-hit ball for the Cardinals and Johnny Hopp and Enos Slaughter backed him up with a pair of two-run homers.

The Dodgers were smothered under the five-hit pitching of Vern Olsen, who would have had his third consecutive shutout except for a home run by Joe Medwick in the ninth inning.

The Boston Braves beat the Cincinnati Reds 4-2, with Al Javery besting Johnny Vander Meer in a pitching duel in which each allowed seven hits. Javery fanned only two compared to Vandy's seven, but he was more effective.

Baseball's curfew law caused its first major league tie in a struggle between the New York Giants and Pittsburgh Pirates which was interrupted for an hour in order that the fans in Pittsburgh could listen to a broadcast of the heavyweight championship bout of Joe Louis and their hometown hero, Billy Conn.

The game was stopped with the score tied 2-2 in the middle of the fourth inning and although the teams played a total of 11 frames, there never was any more scoring. Bob Elliott's triple accounted for both Pittsburgh runs.

New York, June 19.—By this time all of you know that Billy Conn lost his chance to win the world's heavyweight title by getting a little tipsy with Mr. Big in the 13th round last night. . . . What some of you may not know is that the date for the next million dollar gate will be some time in September at the Yankee Stadium. . . . If anybody ever laid the scene for what the fight mob call "a natural," the Messers, Conn and Louis did it last night. . . . Here is the picture: Conn was leading what many believe to be the greatest fighter of our time by four rounds going into the 13th. . . . Then what happened? . . . Instead of stabbing, jabbing and boxing Louis into a state of utter bewilderment (which he was doing), our hero lost his head. . . . He elected to get in there and slug, then he got kissed—not once but several times—and before you could say Jack Robinson, all was over for Conn—except a rich return bout in September which Mr. Mike Jacobs obligingly will stage.

**Today's Guest Star**  
O. M. Gibbs, Baltimore Sun: "Conn brought a 1941 record of three knockouts into the ring as his contribution to the most amazing fistic buildup in years. . . . # BILLY CONN LOSES BY KNOCKOUT WITH TITLE NEARLY WON

## PITTSBURGH CHALLENGER WAS IN FRONT UNTIL THIRTEENTH ROUND; HAD COMPLETELY OUTBOXED LOUIS

By GAYLE TALBOT  
New York, June 19.—(AP)—For fleeting, golden moments last night, Billy Conn of Pittsburgh held the heavyweight championship of the world within his grasp.

Then Billy gambled, tried to match punches with Joe Louis, and the big negro snapped out of his strange lethargy and knocked Conn kicking in the 13th round before a thrilled crowd at the Polo Grounds.

Conn, the 174-pound gamster, was well in front when the end came, suddenly and unexpectedly. Louis, drawn too fine in his training, had looked a slow, sullen defender of the crown. Conn had danced around him for half the distance, tied him up in the clinches, then had come on to slap the Bomber's teeth out.

At the end of the 11th round the Pittsburgh wonder boy had spread his mouth wide in a grin as he returned to his corner and waved triumphantly to the gallery stretching far back into the dark stands. He thought he was "in," and so did an amazed audience.

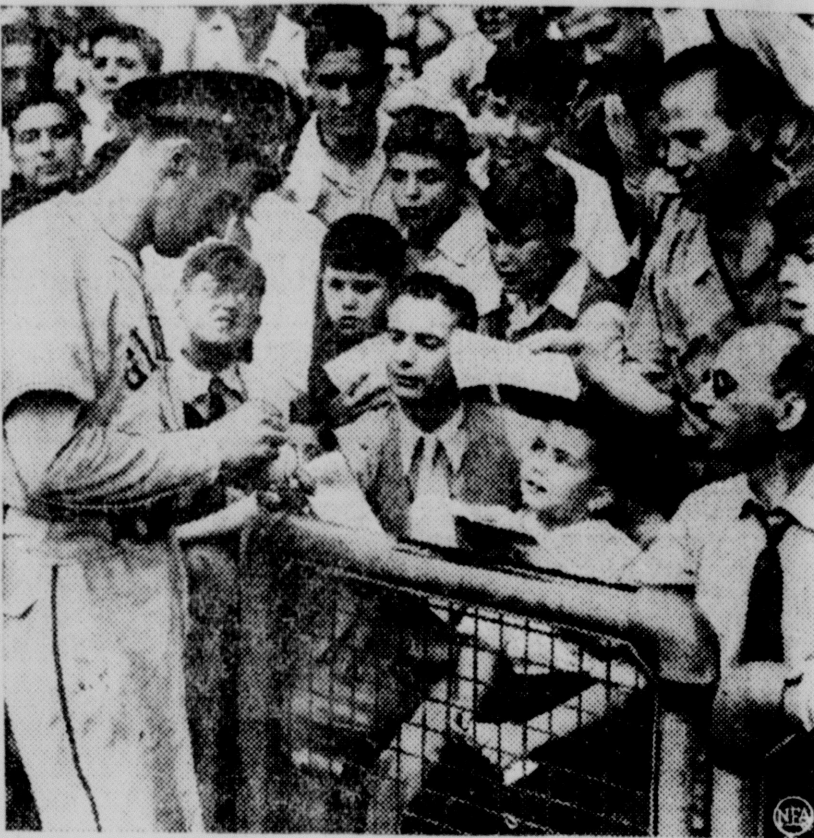

## Four-Ball Tourney Gets Started Today

Toledo, O., June 19.—(AP)—Off and running in a four-day gallop for gold and glory, 16 of the country's No. 1 professionals opened the seventh annual \$7,000 Inverness Invitational four-ball match-ups today.

There was little pressure on the eight pairs for even the last place, plus expenses, for the duration. With a bit of diligence and skill they might, by finishing out front, hoist their daily "take" to close to \$200 per day, for the first place twosome will split \$1,500.

Today's round scheduled these matches: Lloyd Mangrum and Harold (Jug) McSpaden, vs. Jimmy Demaret and Ben Hogan; Sam Byrd and Johnny Bulla vs. Henry Pickard and Johnny Revolta; Clayton Heafner and Dick Metz vs. Ralph Guldahl and E. J. (Dutch) Harrison and Horton Smith and Lawson Little vs. Jimmy Thompson and Byron Nelson.

## CONN'S MOTHER LAUDS SON EVEN THOUGH BEATEN

Pittsburgh, June 19.—(AP)—The mother of Billy Conn can take it on the chin with a smile as well as her big laughing boy.

Mrs. Margaret Conn, only 41 but stricken with a usually fatal malady, showed her pluck last night when a sister, Mrs. Rose Shook, came upstairs to her bedroom to tell her of Conn's knockout by Joe Louis in the 13th round in New York.

"Just all right, Rose," whispered the mother. "I know, I'm proud of Billy."

She had been too ill to have a radio in her darkened bedroom where a nurse sat by her side. But she might have received an inkling of the fight from the two radios downstairs where the women folk of the family gathered and tensely listened to the broadcast.

Mary Jane Conn, 20-year-old "boss" of the house since her mother has been in bed, collapsed in her chair as the referee was counting out her brother. Then she sobbed, as did some of the other cousins and aunts present, but not 11-year-old red-headed Peggy Ann Conn who piped:

"But he only could have gotten up. But he'll get another match and he'll beat that Joe Louis then I'll beat you."

Billy telephoned home after the fight as he has been doing daily from his training camp. He promised again to get "mom" the title "next time."

May Have Decisive Influence

(From Page One)

BY LOUIS P. LOCHNER  
Berlin, June 19.—(P)—The Wilhelmstrasse, with the Turkish friendship pack safely tucked away, concentrated today on studying the reaction in other countries.

Significantly, the Kremlin at Moscow as yet has given no indication of how the Russians feel about it. Satisfaction was taken here in British reaction, which was regarded by authoritative circles as "indicating complete surprise and admission that English diplomacy was stunningly defeated."

Rome, June 19.—(P)—Turkey's new friendship pact with Germany was regarded here today as a swing toward the Axis powers which unofficial sources expected would lead to the German-Italian drive toward Suez and the Near East oil fields by eliminating the danger of conflict with Britain's nominal Ottoman ally.

Fascist circles described the treaty as of great importance.

President Roosevelt Honored With Oxford Degree

(From Page One)

The president's diploma, intoned by Lord Halifax, set forth that Oxford's tribute was given "in lively recollection of his stand for liberty and of his steadfast championship of humanity and law."

Turning to the British ambassador, who was arrayed in black and gold robes of state as chancellor of Oxford, General Watson said the president had asked him "to convey his message to his old associates of Harvard University, and especially to his new associates of the University of Oxford."

Among the honorary degrees were the following:

Clarence A. Dykstra, president of the University of Wisconsin, former selective service director and now head of the National Mediation Board, doctor of laws.

Ben G. Graham, superintendent of Pittsburgh public schools, doctor of laws.

Unable or probable cause and without a proper regard for the rights and integrity of the persons involved."

Cavalcante later introduced two bills, one to prohibit lobbyists from providing "any entertainment, feast or enjoyment" to members of the legislature and the other prohibiting caucuses of legislators any place except the state capitol. The anti-lobby bill carries a penalty of \$10,000 fine or five years imprisonment.

Corydon

(From Page One)

Corydon, June 16.—Inclement weather of Friday evening last failed to dampen the spirit of approximately 21 members of the Young People's society of the community who motored to Allegheny State park for an outing and basket picnic supper. Serving on the committee were Virginia Crooks, Leatrice Smith and Beverly Price. The Rev. and Mrs. R. J. Shoff and others accompanied the group.

The miscellaneous shower held Thursday afternoon at the home of Mrs. John K. Crooks, complimenting the Rev. and Mrs. Wayne Egan proved a decidedly pleasant affair. A number attended locally and a guest from away was Mrs. Bernard Joy, Warren. Mrs. M. D. Gardner is entertaining the Methodist church women this week Thursday.

Carl Travis, popular Willow Creek resident and one of the most accommodating of rural route mail carriers, will make his last trip in that capacity on Saturday, June 28. For over 15 years Mr. Travis has served faithfully and well the residents of his home community and will be greatly missed. His successor will be L. J. Whyte.

Mrs. George Akers on Thursday afternoon delightedly entertained the members of the Foreign Missionary Society. The time was occupied with sewing for the hostess and otherwise spent socially after which refreshments were served. Mrs. John Hedden Alleghany, was a guest from away. Mrs. John Schuler, will be hostess to this week's gathering.

Members of the Wednesday Night Social Club met with Mrs. George Black. Following an enjoyable evening of 500 prizes were awarded to Mrs. Jessie Bennett and Mrs. Anna Hammond.

An appropriate and pleasing Children's Day program was presented Sunday morning prior to the regular service in the Nazareth church. Mrs. R. J. Shoff, was chairman of the committee in charge. Donna Lee Malone gave the address of welcome.

Killers Seek To Evade the Chair

Appearing for Jones the Rev. Marshall L. Hatcher, of Pittsburgh, pleaded with the board for "mercy to extend the life of his aged mother."

He submitted petitions for clemency which he said were signed by 2,611 persons.

SMARTLY YOKED CASUAL MODE

PATTERN 4791

By Anne Adams

You'll need a here, there and everywhere frock for the summer casual life—and here it is—in a style by Anne Adams! Simple as can be to make and to wear, yet Pattern 4791 has a gay, fresh, young air about it. Notice the spirited, swinging line of the yoke that curves across the front from shoulder to shoulder— isn't it smart? The wide revers are new and so attractive, especially if you decide to trim them with buttons and buttonholes. Darts below the yoking and gathers above the waist hold the softness of the bodice in place. Even the skirt has unusual flattery in slimming front and back panels. Choose a cool summery fabric—a pique, linen or shantung will be smart.

Pattern 4791 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/2 yards 35 inch material.

Pressure on Russia Tightens

fallen upon the Soviet border at 15 points.

There was no confirmation of either of these reports.

Whatever the basis for the rumors, it was considered here that there was ample foundation for the belief that Hitler is steadily applying pressure to Russia to gain economic concessions vital to Germany's war plans.

Dispatches from Ankara reported that German air squadrons along the Rumanian-Russian frontier had been heavily reinforced and Nazi circles in the Turkish capital were quoted as saying frankly that "all signs point to war with Russia."

Diplomatic circles in Ankara said they had no direct knowledge of any German-Russian negotiations, but it was common belief there that the entire exportable surplus of the Ukraine grain crop and direction of the Soviet railways, oil industry and vital mining enterprises.

Such demands, if granted, would make Russia virtually an economic vassal of Germany, these sources said. They expressed belief that Soviet Premier Joseph Stalin was playing desperately for time while massing his Red Army to meet the threat of German troop concentration along his frontier.

## May Have Decisive Influence

BY LOUIS P. LOCHNER  
Berlin, June 19.—(P)—The Wilhelmstrasse, with the Turkish friendship pack safely tucked away, concentrated today on studying the reaction in other countries.

Significantly, the Kremlin at Moscow as yet has given no indication of how the Russians feel about it. Satisfaction was taken here in British reaction, which was regarded by authoritative circles as "indicating complete surprise and admission that English diplomacy was stunningly defeated."

Rome, June 19.—(P)—Turkey's new friendship pact with Germany was regarded here today as a swing toward the Axis powers which unofficial sources expected would aid the German-Italian drive toward Suez and the Near East oil fields by eliminating the danger of conflict with Britain's nominal Ottoman ally.

Fascist circles described the treaty as of great importance.

The president's diploma, intoned by Lord Halifax, set forth that Oxford's tribute was given "in lively recollection of his stand for liberty and of his steadfast championship of humanity and law."

Turning to the British ambassador, who was arrayed in black and gold robes of state as chancellor of Oxford, General Watson said the president had asked him "to convey his message to his old associates of Harvard University, and especially to his new associates of the University of Oxford."

Among the honorary degrees were the following:

Clarence A. Dykstra, president of the University of Wisconsin, former selective service director and now head of the National Mediation Board, doctor of laws.

Ben G. Graham, superintendent of Pittsburgh public schools, doctor of laws.

Cavalcante later introduced two bills, one to prohibit lobbyists from providing "any entertainment, feast or enjoyment" to members of the legislature and the other prohibiting caucuses of legislators any place except the state capital.

The anti-lobby bill carries a penalty of \$10,000 fine or five years imprisonment.

## Corydon

Corydon, June 16—Inclement weather of Friday evening last failed to dampen the spirit of approximately 21 members of the Young People's society of the community who motored to Allegheny State park for an outing and basket picnic supper. Serving on the committee were Virginia Crooks, Leatrice Smith and Beverly Prue. The Rev. and Mrs. R. J. Shoff and others accompanied the group.

The miscellaneous shower held Thursday afternoon at the home of Mrs. John K. Crooks, complimenting the Rev. and Mrs. Wayne Price, proved a decidedly pleasant affair. A number attended locally and a guest from away was Mrs. Bernard Joy, Warren. Mrs. M. D. Gardner is entertaining the Methodist church women this week Thursday.

Carl Travis, popular Willow Creek resident and one of the most accommodating of rural route mail carriers, will make his last trip in that capacity on Saturday, June 28. For over 16 years Mr. Travis has served faithfully and well the residents of his home community and will be greatly missed. His successor will be L. J. Whyte.

Mrs. George Akers on Thursday afternoon delightfully entertained the members of the Foreign Missionary Society. The time was occupied with sewing for the hostess and otherwise spent socially after which refreshments were served. Mrs. John Hedden, Allegheny, was a guest from away. Mrs. John Schuler, will be hostess to this week's gathering.

Members of the Wednesday Night Social Club met with Mrs. George Black. Following an enjoyable evening of 500, prizes were awarded to Mrs. Jessie Bennett and Mrs. Anna Hammond.

An appropriate and pleasing Children's Day program was presented Sunday morning prior to the regular service in the Nazarene church. Mrs. R. J. Shoff, was chairman of the committee in charge. Donna Lee Malone gave the address of welcome.

## Warren Young Man Writes Experience As Seaman on Lakes

An interesting letter has been received by Major B. E. Flinn, Salvation Army officer, from Russell E. Foy, local young man who is enlisted as a seaman on the Great Lakes. In the communication, he describes in detail parts of a perilous journey to Greenland.

Excerpts from his letter follow: "We have just returned from our long journey to Greenland. The boat which took us—the R. P. Rooney—got stuck in the ice near Greenland, and this boat—the E. Upsen—was sent to our rescue. When we reached the St. Lawrence River, I did thank God. It was great to see the U. S. again.

"I have been well and am still trusting in the Lord. I am getting used to the rolling of the boat; at first, I could hardly stay in bed, but now have it fixed so I can't roll out.

"Sure miss the Warren Saturday night meetings. I haven't played my horn since I got on the boat. It is not difficult to be a Christian here even though we do not have religious services. I take about 15 to 30 minutes to read my Bible each night before retiring. Hope to get back to Warren for a short visit soon."

# More Power... Lower Cost

## That's why Heavy Industry and Chrysler Cars have Fluid Drive

● HEAVY INDUSTRY... Diesel-powered ocean vessels... great double-deck busses... heavy haulage tractor trucks... massive power plants... first used Fluid Drive.

They sought—and found in Fluid Drive—power transmission as fluid and flexible as steam.

But they demanded efficiency and economy. Industry has no place for mere luxury. They required the ability to pick up great loads easily and with ever-mounting power... they demanded savings in operation and in upkeep.

And so industry has increasingly adopted Fluid Drive.

Chrysler engineers were first to see the immense advantages of Fluid Drive in a motor car. They perfected and adopted this scientific principle... gave it to the public first in Chrysler cars three years ago.

Now Chrysler's perfected Fluid Drive is available on all Chrysler models.

Fluid Drive gives you double economy in your Chrysler—first, efficient application of power; second, longer car life because of lessened wear and strain from jerks and jolts.

Owners of Fluid Drive Chryslers, for the third year, are reporting greater economy than from their former cars.

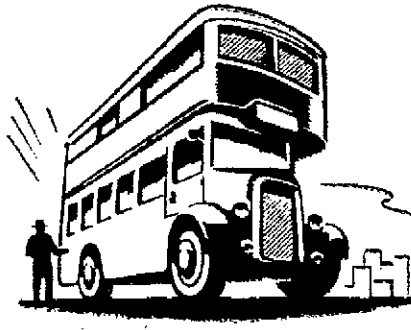

Chrysler with Fluid Drive is years ahead. If you own a Fluid Drive Chrysler you protect your investment for the future. Fluid Drive adds greatly to your car's trade-in value.

Why shift gears? Why pump a clutch? Why not save on both operation and upkeep?

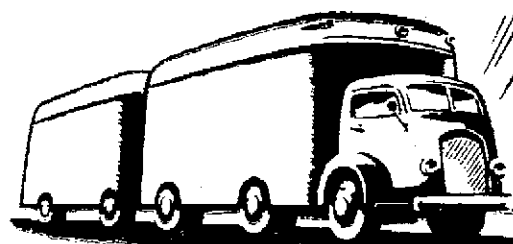

The nearest Chrysler dealer cordially invites you to make a real test of Fluid Drive efficiency and ease.

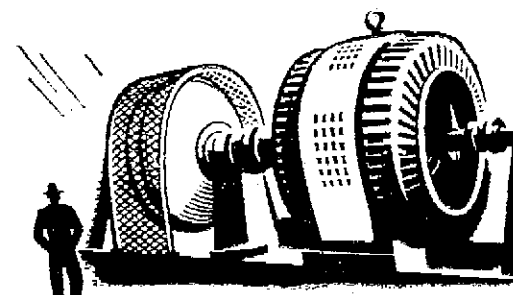

Ships with Fluid Drive ply the seven seas in ever-increasing numbers.

Great double-deck busses, here and abroad, are economically powered with Fluid Drive.

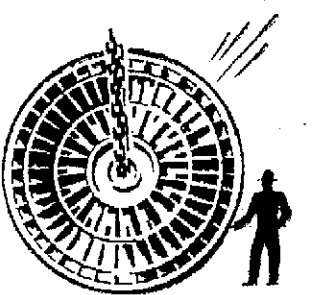

These giant tractor trucks with Fluid Drive have the flexibility of steam.

Fluid Drive scientifically handles without jerk or jolt the variable load of massive power installations.

### Warren Young Man Writes Experience As Seaman on Lakes

An interesting letter has been received by Major B. E. Flinn, Salvation Army officer, from Russell E. Foy, local young man who is enlisted as a seaman on the Great Lakes. In the communication, he describes in detail parts of a perilous journey to Greenland.

Excerpts from his letter follow: "We have just returned from our long journey to Greenland... The boat which took us—the R. P. Rooney—got stuck in the ice near Greenland, and this boat—the J. E. Upson—was sent to our rescue. When we reached the St. Lawrence River, I did thank God. It was great to see the U. S. again.

"I have been well and am still trusting in the Lord. I am getting used to the rolling of the boat; at first, I could hardly stay in bed but now have it fixed so I can't roll out.

"Sure miss the Warren Saturday night meetings. I haven't played my horn since I got on the boats. It is not difficult to be a Christian here even though we do not have religious services. I take about 15 to 30 minutes to read my Bible each night before retiring. Hope to get back to Warren for a short visit soon."

# More Power... Lower Cost

## That's why Heavy Industry and Chrysler Cars have Fluid Drive

● HEAVY INDUSTRY... Diesel-powered ocean vessels... great double-deck busses... heavy haulage tractor trucks... massive power plants... first used *Fluid Drive*.

They sought—and found in *Fluid Drive*—power transmission as fluid and flexible as steam.

But they demanded efficiency and economy. Industry has no place for mere luxury. They required the ability to pick up great loads easily and with ever-mounting power... they demanded savings in operation and in upkeep.

And so industry has increasingly adopted *Fluid Drive*.

Chrysler engineers were first to see the immense advantages of *Fluid Drive* in a motor car. They perfected and adopted this scientific principle... gave it to the public first in Chrysler cars three years ago.

Now Chrysler's perfected *Fluid Drive* is available on all Chrysler models.

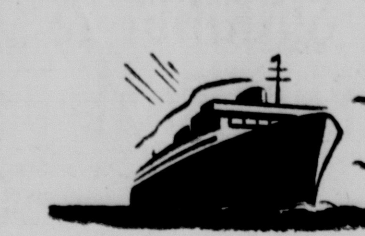

*Fluid Drive* gives you double economy in your Chrysler—first, efficient application of power; second, longer car life because of lessened wear and strain from jerks and jolts.

Owners of *Fluid Drive* Chryslers, for the third year, are reporting greater economy than from their former cars.

Chrysler with *Fluid Drive* is years ahead. If you own a *Fluid Drive* Chrysler you protect your investment for the future. *Fluid Drive* adds greatly to your car's trade in value.

Why shift gears? Why pump a clutch? Why not save on both operation and upkeep?

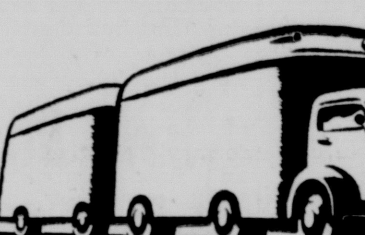

The nearest Chrysler dealer cordially invites you to make a real test of *Fluid Drive* efficiency and ease.

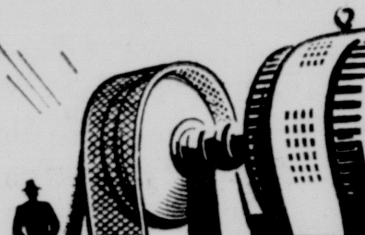

Ships with *Fluid Drive* ply the seven seas in ever-increasing numbers.

Great double-deck busses, here and abroad, are economically powered with *Fluid Drive*.

These giant tractor trucks with *Fluid Drive* have the flexibility of steam.

*Fluid Drive* scientifically handles without jerk or jolt the variable load of massive power installations.
